Objection to abovementioned application for 340 houses on green belt land. My name is Nick Adams, 15 Partridge Pl, Kidlington OX5 1SL, UK. The planning application is flawed in my opinion as it is adjacent to both green belt and flood plain. The nearby river Cherwell has been very prone to frequent flooding in recent years, indeed flooding has been severe to the point of entering the church street, and moors on occasions. Where will the sewage go, given Thames water's inability to deal with that situation. If the sewage goes into the Cherwell, it will kill a river environment already under pressure. Then you will have an increase in pressure on traffic in church street, the moors, how is that situation to be addressed? Yours sincerely, Nick Adams.
