Good Afternoon, I am emailing to OBJECT most strongly to the planned development behind the Moors, Kidlington. My reasons are:

- It is Green Belt, agricultural land
- Nature conservation area – home to many species of plants and animal life
- It is the last remaining area in Kidlington for relaxation and recreation – it provides well-being for us all
- Infrastructure – the intended buildings will bring this beyond the limit sustainable – sewerage, water supply, adding many cars to the already over stretched road system.
- As such will have an adverse impact on local road network
- Regularly flooded
- Should be designed a **Local Green Space**

I hope the Council will turn down this application – keeping in mind the benefit this green area will have for the village – very few such areas are left for the villagers.
