Subject: 25/01346/OUT, David Brandom, 5 Woodlands, Kidlington OX5 2ER

Dear Sirs

I write to object to the proposed application. I have lived in Kidlington and enjoyed use of the land behind The Moors for over 60 years. This land contributes greatly to the physical and mental wellbeing of those living in the neighbourhood. To have the area transformed into a housing estate with increased stress on local facilities/more traffic etc is both demotivating for the local community and hugely impractical.

I am also very concerned about the increased risk of flooding if these fields are built upon - I have been evacuated from my home in recent years due to flooding risk and am therefore very aware of the risk of floods, increased run-off etc.

We already have 4,400 new houses proposed for Kidlington - let us assimilate these before starting yet another development project.

Yours faithfully

David Brandom
