Dear Mr Traves

I understand that there is to parking restrictions potentially imposed in the new development, next to Park View.

There is currently a lot of non-residents that seem to be parking on Park View. We live at 33 Robinson Avenue and that portion of the road only serves No 31 and 33. There should therefore be very few vehicles parked along that portion of the road.

However lately, there are a number of vehicles that park here and use it as a drop off point for school children. Also, there are cars that are parked here and do not move from weeks on end. These cars are not owned by residents. It seems that people come and park, use the footpath to the bus stop on Oxford Road and may be go from there to the airport or similar.

During one of the Blenheim Events, a camper van was parked there for a number of days. I suspect it was someone working there as the camper van would go during the day and the person was driving back at night to park the camper van and sleep right outside our living room windows.

I would therefore support parking restrictions being imposed onto Park View before the problem exacerbates further when the land next door is developed but also in the meantime.

With kind regards

Sophie Philippon-Thomas
