Dear Mr Traves

I am a resident of Park View and live on Henrietta Way. I submitted a formal objection through the Planning Portal on 7 July 2025.

The residents of Park View have recently been advised that Oxfordshire County Council wish to have the proposed link road open to all vehicles - which includes Henrietta Way - open to all traffic. This proposal is contrary to the applicant's proposal, and assurances given to Park View residents by the applicant, that the proposed link road would be restricted to a pedestrian and cycle route, with possible access for buses.

I am writing to object to Oxfordshire County Council's proposal to have the proposed link road open to all vehicles.

This is a very concerning proposal. Park View is a quiet residential development and it would fundamentally alter the character of the development, and quiet enjoyment for residents, if it were to become a through road, with additional traffic. The proposed link road potentially could be used as a rat run, especially at time when traffic coming into Woodstock or Blenheim Palace on the A44/Bladon roundabout is busy. Road safety issues would arise as a result of increased traffic. There are lots of pedestrians, children and pets in Park View, including children walking to the local school, the nursery within Park View and the 2x childrens' play areas, and users of the local amenities. Currently, the speed limit is 30mph and there are no traffic calming measures in Park View, and I understand that Oxfordshire County Council does not propose to reduce this to a lower 20mph speed limit. Increased traffic at 30mph speeds poses a danger to pedestrians and other drivers in Park View on the small residential roads and narrow junctions.

I would request that the proposed link road is restricted to a pedestrian and cycle route, with possible access for buses, in accordance with the original application.

Kind regards
Caroline
