

09 September 2025

Cherwell District Council
39 Castle Quay
BANBURY
Oxfordshire
OX16 5FD

Dear Sir / Madam

SUBMISSION OF DETAILS TO DISCHARGE CONDITION X OF PLANNING APPLICATION 24/02058/F.

Please accept this letter on behalf of LNT Care Developments (the Applicant) for the above-mentioned planning application submitted via Planning Portal.

We would like to formally request to discharge the following conditions:

- **IMPORTANT - BIODIVERSITY NET GAIN CONDITION**

The effect of paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 is that planning permission granted for the development of land in England is deemed to have been granted subject to

the condition “(the biodiversity gain condition”) that development may not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- (b) the planning authority has approved the plan.

The planning authority, for the purposes of determining whether to approve a Biodiversity Gain Plan if

one is required in respect of this permission would be Cherwell District Council.

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These are listed below.

Based on the information available this permission is considered to be one which will require the approval of a biodiversity gain plan before development is begun because none of the statutory exemptions or transitional arrangements listed below are considered to apply.

Advice about how to prepare a Biodiversity Gain Plan and a template can be found at Submit a biodiversity gain plan - GOV.UK (www.gov.uk).

The Biodiversity Gain Plan should be submitted as an ‘application for approval of details reserved by condition following grant of planning permission’. Relevant fees will apply. Further guidance on how to

submit an application can be found via our website www.cherwell.gov.uk

Statutory exemptions and transitional arrangements in respect of the biodiversity gain condition.

1. The application for planning permission was made before 12 February 2024.

2. The planning permission relates to development to which section 73A of the Town and Country Planning Act 1990 (planning permission for development already carried out) applies.

3. The planning permission was granted on an application made under section 73 of the Town and Country Planning Act 1990 and

(i) the original planning permission to which the section 73 planning permission relates* was granted before 12 February 2024; or

(ii) the application for the original planning permission* to which the section 73 planning permission relates was made before 12 February 2024.

4. The permission which has been granted is for development which is exempt being:

4.1 Development which is not ‘major development’ (within the meaning of article 2(1) of the Town and

Country Planning (Development Management Procedure) (England) Order 2015) where:

- i) the application for planning permission was made before 2 April 2024;
- ii) planning permission is granted which has effect before 2 April 2024; or
- iii) planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 where the original permission to which the section 73 permission relates* was exempt by virtue of (i) or (ii).

4.2 Development below the de minimis threshold, meaning development which:

- i) does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and
- ii) impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat (as defined in the statutory metric).

4.3 Development which is subject of a householder application within the meaning of article 2(1) of the

Town and Country Planning (Development Management Procedure) (England) Order 2015. A “householder application” means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

4.4 Development of a biodiversity gain site, meaning development which is undertaken solely or mainly

for the purpose of fulfilling, in whole or in part, the Biodiversity Gain Planning condition which applies in relation to another development, (no account is to be taken of any facility for the public to access or to use the site for educational or recreational purposes, if that access or use is permitted without the payment of a fee).

4.5 Self and Custom Build Development, meaning development which:

- i) consists of no more than 9 dwellings;
- ii) is carried out on a site which has an area no larger than 0.5 hectares; and
- iii) consists exclusively of dwellings which are self-build or custom housebuilding (as defined in section 1(A1) of the Self-build and Custom Housebuilding Act 2015).

4.6 Development forming part of, or ancillary to, the high speed railway transport network (High Speed 2) comprising connections between all or any of the places or parts of the transport network specified in section 1(2) of the High Speed Rail (Preparation) Act 2013.

* “original planning permission means the permission to which the section 73 planning permission relates” means a planning permission which is the first in a sequence of two or more planning permissions, where the second and any subsequent planning permissions are section 73 planning permissions.

Irreplaceable habitat

If the onsite habitat includes irreplaceable habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements for the content

and approval of Biodiversity Gain Plans.

The Biodiversity Gain Plan must include, in addition to information about steps taken or to be taken to

minimise any adverse effect of the development on the habitat, information on arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat.

The planning authority can only approve a Biodiversity Gain Plan if satisfied that the adverse effect of the

development on the biodiversity of the irreplaceable habitat is minimised and appropriate arrangements

have been made for the purpose of compensating for any impact which do not include the use of biodiversity credits.

The effect of section 73D of the Town and Country Planning Act 1990

If planning permission is granted on an application made under section 73 of the Town and Country Planning Act 1990 (application to develop land without compliance with conditions previously attached)

and a Biodiversity Gain Plan was approved in relation to the previous planning permission (“the earlier Biodiversity Gain Plan”) there are circumstances when the earlier Biodiversity Gain Plan is regarded as

approved for the purpose of discharging the biodiversity gain condition subject to which the section 73

planning permission is granted.

Those circumstances are that the conditions subject to which the section 73 permission is granted:

i) do not affect the post-development value of the onsite habitat as specified in the earlier Biodiversity Gain Plan, and

ii) in the case of planning permission for a development where all or any part of the onsite habitat is irreplaceable habitat the conditions do not change the effect of the development on the biodiversity of that onsite habitat (including any arrangements made to compensate for any such effect) as specified in the earlier Biodiversity Gain Plan.

The following document accompanies the application:

Biodiversity Gain Plan

- Biodiversity_Gain_Plan

Decision Notice

- Decision_Notice_2402058F

Location Plan

- OX252BF-A-01-LOCATION_PLAN

The required planning fee has been paid via the Planning Portal. (Ref. PP-14289790)

I hope this provides sufficient information to validate the application. If you have any queries, please do not hesitate to contact me by email at alex.robinson@lntconstruction.co.uk or at 07808 186145.

Yours faithfully

Miss Alex Robinson
