Dear Ms Toomey,

Ref: 1644 Bankside Banbury

Thank you for your letter of 19th October 2004 requesting information about the locations of any badger setts or foraging areas for this area.

Our records show that there is an active sett at SP 462382 near Bodicote House and evidence of activity, but no sett, at SP 462376. There are also records of an old sett just outside the area at SP 459364 south of Bloxham Grove.

However I should stress that as we are a small voluntary group and have not been able to survey the area more fully, it is possible that the area of interest contains other setts.

I hope this will be of some help. There is no charge for this service but we are always extremely grateful for any donations.

Best wishes,

Yours sincerely,

Penny Rodgers (OBG Record Keeper)
