I am writing to let you know the results of my search for biological data for land in and around Bankside, Banbury (your ref MT/1644). I enclose tables of species records for legally protected and notable/rare species, and a designated sites map showing the boundary of the single non-statutory site within your search area. I also include a description of this County Wildlife Site (CWS) . There are no statutory sites within the search area. To aid with the interpretation of the species records tables, I also enclose a species status key.

Please do not hesitate to contact me if you have any queries about this data search. The Invoice for this work will be sent separately.

Yours sincerely,

Allen Lee
