

Approximate Locations of Trees to be Removed and Retained

KEY

- Existing trees
- Category 'R' trees to be removed to BS5837:2005
- Approximate location of trees and vegetation to be removed
- Existing Conifer trees to be phased out and replaced with native species

NOTE :
'This plan shows the approximate locations of trees only. Further survey work will be undertaken at detailed design stage to verify condition and exact numbers of trees to be removed or retained, where these are found to be worthy of retention'.
