Subject: 11/00279/LB - Discharge of condition 25 (ii) of 08/00716/OUT

Dear Sam

Thank you for consulting the Design and Conservation Team on the above application. It is noted that the document dates to the 2013 and it is assumed that any development in the intervening period has adhered to the lighting strategy. It is noted that the lighting strategy is for the flying field only.

There are no particular objections to the discharging of this condition and it is noted that the current Historic England guidance dates to 2007 and is likely to have taken relevant issues on board. Historic England are, currently in the process of updating guidance.

If an additional lighting strategy exists for the area outside the flying field this may need to take into account technological advances and a social greater emphasis on 'dark sky' issues and light pollution.
