### **Recommendation**

No objection

### **Detailed comments**

The parameters set out in the Parking Strategy are acceptable in principle. It will be necessary to ensure that all parking spaces meet the County's parking design standards and do not interfere with visibility splays.

The car parking standards for businesses set out on page 5 of the Parking Strategy are in accordance with the County's standards. The cycle parking standards set out on Page 6 of the Parking Strategy are slightly at variance with the County's standards but are considered acceptable.
