Key issues

- Condition 30 – the proposals do not make any provisions for Aves Ditch.

Detailed comments

The revisions to this application to discharge the condition in respect of Portway are fully supported. However, the application documents do not include any proposals for Aves Ditch which is an integral part of Condition 30.

The County can not recommend discharge of this condition until acceptable proposals are received for Aves Ditch.

In addition, it is requested that the works are required to be fully implemented including reopening of the whole route to the public within 6 months of the date of permission so that the route can be used ready for summer half term 2019. It is further requested that Aves Ditch route and reopening is undertaken to the same timescale. Once the County has this commitment it will enable works on connecting routes outside of the site to be programmed in.
