1 Introduction

Peter Brett Associates LLP (PBA) has been appointed by Kraft Foods UK Ltd and Barwood Developments Ltd to provide transport advice for a proposed development of the Kraft Foods UK Ltd site located to the west of Southam Road (A361) approximately 800m to the north of Banbury town centre, Oxfordshire.

The proposed 6.53 hectare development will provide a food store of 5,574m² (60,000sqft) GIA including a Petrol Filling Station, a number of A1 retail units with a total floorspace GIA of up to 7,432m² (80,000sqft). The proposed buildings are potentially suitable for mezzanine floors. However this would be a matter for the individual retailer to pursue through a separate planning application. The illustrative Masterplan is held in **Appendix A**.

This Framework Travel Plan will be submitted to the Local planning Authority (Cherwell District Council *District Council*) in consultation with the local highway authority (Oxfordshire County Council - *County Council*) to support the planning consent for the proposed development.

In confirming the need for a Travel Plan to accompany the planning application, reference was made to the Department for Transport's (*DfT's*) and the Department for Communities and Local Government's (*DCLG's*) Guidance on Transport Assessment (2007). Appendix B within the Guidance on Transport Assessment provides indicative thresholds for the provision of Travel Plans and suggests that Travel Plans should be provided where proposals exceed:

- Food Retail – 800m²
- Non food retail – 1,500 m²

Therefore a Travel Plan is required for the proposed development.

The DfT's 'Good Practice Guidelines: Delivering Travel Plans through the Planning Process' (April 2009 – the *Good Practice Guidelines*), defines a Travel Plan as “...a long-term management strategy for an occupier or site that seeks to deliver sustainable transport objectives through positive action and is articulated in a document that is regularly reviewed. It involves the development of agreed explicit outcomes linked to an appropriate package of measures aimed at encouraging more sustainable travel, with an emphasis on reducing single occupancy car use”. Additionally, the Good Practice Guidelines states that ‘in the case of large mixed-use developments with multiple occupants, it will be appropriate to prepare a framework travel plan’.

Once complete, the employment site will comprise a combination of employers. Consequently, a Framework Travel Plan was prepared in accordance with the following definition, provided in the Good Practice Guidelines (Glossary of Terms):

“Framework (umbrella) travel plan: An overarching travel plan that embraces a large development which may have mixed uses and multiple occupiers/ phases. Specific travel plans, i.e. subsidiary travel plans, would be created for developments within the site which would need to be consistent with the wider targets and requirements of the overall framework travel plan”.

Further description of such a Travel Plan is provided in the same document in paragraph 2.13, which states:

“In the case of large mixed-use developments with multiple occupants, it will be appropriate to prepare a framework travel plan. The framework travel plan should set overall outcomes, targets and indicators for the entire site. It is best administered centrally. It should set the parameters for the requirement for individual sites (or uses/ elements) within the overall development to prepare and implement their own subsidiary travel plans. These should comply with and be consistent with the wider targets and

requirements of the framework travel plan. Potential occupiers need to be advised of the travel plan requirements. The framework travel plan should also clarify as far as possible the timeframe for completion of individual travel plans and the implementation of specific measures within them as the development proceeds, including management and review."

This Framework Travel Plan therefore provides the overarching principles and targets for the development at Southam Road Retail Park as well as the fundamentals for the content of the Subsidiary Travel Plans that will be prepared by occupiers within the timeframes set out in this document.

It should also be noted that at a scoping meeting with the County Council, held on 10th January 2012, the County Council agreed a Framework Travel Plan was suitable for the proposed development.

1.1 Benefits of the Travel Plan

The main element of travel that this Travel Plan seeks to address is employee commuter trips. Some of the measures being promoted at the site for employees will also be appropriate for visitors. This will help to ensure that the Site's advantageous position within Banbury is capitalised on and that its sustainable credentials are realised in practice.

Creating a Framework Travel Plan will ensure that work-related travel is managed at a corporate level in order to achieve modal shift from car use to more sustainable forms of travel.

The benefits of a Framework Travel Plan include:

- Managing the demand for travel to and from the site
- Improvement in the availability and choice of travel modes including promoting integration between different travel modes
- Improving the safety and security of staff
- Promoting healthier travel modes such as walking and cycling
- Co-ordinating travel options between individual developments within the site
- Making positive changes to travel attitudes across the site and in the wider community.

1.2 Framework Travel Plan Content

While the content of a Travel Plan is critical, the structure is not predefined in national guidance. Advice was sought from the local authorities in the preparation of this Framework Travel Plan. This Framework Travel Plan reflects these discussions and the list of requirements set out in paragraph 5.15 of the Good Practice Guidelines by providing in this and in Subsidiary Travel Plans the following content:

- Existing conditions (Chapter 2)
- Relationship to Travel Plan Policy (Chapter 3)
- Travel Plan Governance (Chapter 4)
- Indicators and targets to deliver the outcomes (Chapter 5)
- Means of achieving the outcomes and targets (Chapters 6, 7)
- An implementation process and financial provisions (Chapter 8)

- A monitoring regime (Chapter 9)
- Ongoing management arrangements for the Travel Plan (Chapter 5, 9).

2 Existing Conditions

2.1 Introduction

This chapter identifies the existing conditions associated with the proposed development, describing the walk / cycle access, current local public transport provision, and the surrounding local and strategic highway network.

2.2 Site Local Context

The extent of the site and its location between Ruscote Avenue (A422) and Southam Road (A361) is shown in **Figure 2.1**.

Contains Ordnance Survey data © Crown Copyright and database right 2011

Figure 2.1 – Site Location Plan (Local Context)

2.3 Existing Pedestrian and Cycle Facilities

For walking, paragraph 74 within Planning Policy Guidance note 13 (PPG13) states that 'walking is the most important mode of travel at the local level and offers the greatest potential to replace short car trips, particularly under 2km'. For cycling, paragraph 77 within PPG13 states that 'cycling also has potential to substitute for short car trips, particularly those under 5km, and to form part of a longer journey by public transport'.

The site is located to the north of Banbury between Ruscote Avenue (A422) to the west and Southam Road (A361) to the east. Both Ruscote Avenue (A422) and Southam Road (A361) converge at the Southam Road (A423) / Hennef Way (A422) / Southam Road (A361) / Ruscote Avenue (A422) roundabout approximately 380m north of the site.

A shared footway / cycleway with a width of approximately 3m is located along the west of Southam Road (A361) adjacent to the site. Give-way markings for cyclists are provided at the vehicular accesses to Southam Road Cemetery, which borders the south of the site, as shown in **Figure 2.2**. The local cycle routes are shown in **Appendix B**.

Figure 2.2 – Cyclist Give-Way Junction Markings (Southam Road)

To the east side of Southam Road (A361), there is a footway with a width of approximately 2.3m. An on-road cycle lane measuring around 1m in width is also located along the eastern edge of Southam Road (A361). This foot and cycle provision facilitates access north to existing local retail provision and south to Banbury Town Centre.

There are a number of Public Rights of Way (PROW) located closely to the site and these are shown in **Figure 2.3**.

PROW 120/100 runs along the southern boundary of the site connecting to PROW 120/101 providing good foot connections between Southam Road (A361) and Ruscote Avenue (A422). PROW 120/101 continues from the western side of Ruscote Avenue providing good connection to the residential area situated directly to the west of the site as well as the bus stop on Longelandes Way which serves the B8 bus service. Further detail on the bus services is provided in section 2.4.1 of this report.

PROW 120/99 starts from the same point as 120/100 at Southam Road (A361) and continues in a south west direction and connects to PROW 120/97. PROW 120/98 begins at the point where PROW 120/100 and 120/101 meet and also connects to PROW 120/97. PROW 120/97 continues southwards to Warwick Road.

All PROW referenced have tarmac surfaces approximately 1.5m in width with edgings either side between 1m and 2m in width.

Figure 2.3 – Public Rights of Way

To the west of the site footways are provided on both sides of Ruscote Avenue (A422), and these provide connection to Warwick Road and residential areas to the south of the site. To the north, these footways provide connection to Beaumont Industrial Estate and to Banbury Cross Retail Park, which are located approximately 350m and 600m respectively from the site. The footways are approximately 2.5m in width, set back from the road with grass verges approximately 8m in width between the footpaths and the roadsides. A signal-controlled toucan crossing facility is provided on Ruscote Avenue (A422) immediately to the south of the site (see [Figure 2.4](#)) facilitating east-west connections and a continued link along PROW 120/101. An informal crossing with dropped kerbs is located across Ruscote Avenue (A422) to the west of the site providing connections to a local food superstore.

Figure 2.4 – Toucan Crossing Facility (Ruscott Avenue)

2.4 Existing Bus and Rail Services

2.4.1 Bus

The Institution of Highways and Transportation (IHT) document ‘Guidelines for Planning for Public Transport in Developments’ provides guidance on access to bus services and paragraph 6.20 states that ‘the walking distance to a bus stop should not exceed 400m’.

Figure 2.5 – Bus Stop Locations

A plan of the site and the nearby bus facilities is shown in **Figure 2.5**. A more strategic plan showing the bus routes is held in **Appendix C**. Bus stops are located on Southam Road (A361) to the north and south of the site’s eastern boundary, with the nearest stops to the site situated approximately

220m north from the centre of the site. Bus service B10 operated by Heyfordian Travel, which serves the bus stops on Southam Road (A361), provides hourly northbound and southbound connections along Southam Road (A361), routing between Ruscote and Banbury Town Centre. Details of these bus services are held in **Appendix C** and this information is summarised in **Table 2.1**.

To the west, the closest bus stop to the site is located on Longelandes Way approximately 400m from the centre of the site, and this is served by the B8 circular bus service operated by Stagecoach. From this bus stop, the B8 provides southbound connections with a daily frequency of 3 services an hour and provides connections to Hardwick, Neithrop and Banbury Town Centre. Again, details of these bus services are held in **Appendix C** and this information is also summarised in **Table 2.1**.

Service No	Operator	Route	Frequency			Approx Travel Time
			Mon-Fri	Sat	Sun	
B10	Heyfordian Travel	Banbury Town Centre – Ruscote – Hardwick – Banbury – Hardwick – Ruscote	1 bus an hour between 9:20 and 16:47	1 bus an hour between 9:20 and 16:47	None	8 mins to Ruscote 10 mins to Hardwick
		Hardwick – Ruscote – Banbury Town Centre	1 bus an hour between 9:46 and 16:31	1 bus an hour between 9:46 and 16:31		8 mins to Banbury Town Centre
B8	Stagecoach	Banbury Town Centre – Hardwick – Neithrop – Banbury Town Centre (circular)	3 buses an hour between 7:02 and 20:27	3 buses an hour between 7:50 and 20:27	1 bus an hour between 9:22 and 18:52	10 mins to Banbury Town Centre

Source: Travelline

Table 2.1 – Banbury Bus Services (September 2011) – Regular Bus Services

There are a number of additional less frequent bus services that can be accessed at the southern end of Ruscote Avenue (A422) prior to the roundabout junction with Warwick Road, approximately 560m south of the south-west corner of the site, as shown in **Figure 2.6**. These include the 6 operated by Bakers Commercial Services, and the 269 and 270 operated by Johnsons Coach and Bus Travel. Additionally the 277 operated by Stagecoach calls at the bus stops on Southam Road (A361) to the east of the site and provides two buses per day to Lighthorne Heath and Banbury Town Centre. Timetables for these bus services are provided in **Appendix C** and these are summarised in **Table 2.2**.

Service No	Operator	Route	Frequency			Approx Travel Time
			Mon-Fri	Sat	Sun	
6	Bakers Commercial Services	Moreton In Marsh – Banbury	1 bus on a Tuesday at 13:31	None	None	13 mins to Banbury Town Centre
269	Johnsons Coach and Bus Travel	Stratford upon Avon – Banbury	1 bus a day	1 bus a day	None	7 mins to Banbury Town Centre
270	Johnsons Coach and Bus Travel	Stratford upon Avon – Banbury	4 buses a day	4 buses a day	None	6 mins to Banbury Town Centre
277	Stagecoach	Lighthorne Heath – Banbury	2 buses a day at 10:16 and 12:39	2 buses a day at 10:16 and 12:39	None	7 mins to Banbury Town Centre

Source: Travelline

Table 2.2 – Banbury Bus Services (September 2011) – Limited Bus Services

As shown in **Appendix C** all buses listed either terminate or pass through Banbury Bus Station in Banbury Town Centre providing opportunity for longer journeys to be undertaken by public transport. Banbury bus station provides further bus connections to local destinations and also provides the town centres main coach pick up and drop off point, providing opportunity for sustainable connections between Banbury and cities such as Oxford, Poole, Wolverhampton and London, as well as Gatwick and Heathrow. The bus station is located approximately 400m from Banbury Rail Station providing further opportunity for longer journeys to be undertaken by sustainable means.

2.4.2 Rail

Banbury Rail Station is less than 1.6km walk / cycle distance from the site access which falls within the 2km walk distance and 5km cycle distances identified in PPG13 thereby offering the potential to form part of a longer journey by sustainable means. The location of the rail station is shown in **Figure 2.1**.

Banbury Rail Station is managed by Chiltern Railways and cycle storage facilities in the form of partially covered Sheffield cycle stands are provided at the entrance to the station. Travel with cycles on trains serving the station is permitted subject to space being available.

Car parking comprising 720 spaces is also provided at Banbury Rail Station, and operates as a pay and display. Car parking is provided for the mobility impaired and step free access is available to all of the station platforms.

Banbury Rail Station provides direct and regular services to major destinations such as Birmingham, London, Oxford, Warwick and Reading, as well as to a number of smaller destinations. Southbound and northbound services operate generally 30 minutes or less during the peak periods. Details of the services at Banbury Rail Station are provided in **Appendix C**.

2.5 Existing Local Highway Network

2.5.1 Southam Road (A361)

Southam Road (A361), which bounds the east of the site, has an approximate road width of 8m. It is subject to a 40mph speed limit and this changes to 30mph approximately 300m south of the site immediately south of the Southam Road (A361) / Coopers Gate junction.

To the north, Southam Road (A361) provides connection to the Southam Road (A423) / Hennef Way (A422) / Southam Road (A361) / Ruscote Avenue (A422) roundabout junction, which is located approximately 400m from the site.

To the south Southam Road (A361) provides access from the site through Banbury Town Centre, and onwards to Bloxham, Chipping Norton, and further afield. Connections are also provided to the B4100 and A4260 from the A361, facilitating access towards Stratford upon Avon and Oxford respectively.

2.5.2 Southam Road (A423) and Hennef Way A422

Southam Road (A423) provides access north to Southam through to the A45 and Coventry. Hennef Way (A422) provides access east to the M40 Motorway Junction 11 (M40 J11). From the M40 J11, the A361 routes in a north-easterly direction through the nearby villages of Wardington and Chipping Warden to Daventry, which is located approximately 28km from Banbury.

2.5.3 Ruscote Avenue (A422)

To the west, the site is bounded by Ruscote Avenue (A422), which has an approximate road width of 9.3m and is subject to a speed limit of 40mph. Currently, vehicular access to the site is provided off Ruscote Avenue (A422).

To the north and east, Ruscote Avenue (A422) provides a connection to Southam Road (A423), Southam Road (A361) and onwards to the M40 J11. To the east of the M40 J11, the A422 routes to Middleton Cheney, Brackley and Buckingham.

To the south and west, the A422 routes through Banbury, providing connection to the A423, and on to Stratford-upon-Avon which is located approximately 32km to the northwest of Banbury.

2.5.4 The M40

The M40 runs in a north-south direction along the eastern edge of Banbury and provides strategic access to the town from the north and south via the M40 J11. The M40 provides a connection to Banbury from London to the south and Birmingham to the north. To the north, the M40 connects with the M42 Junction 3A which connects the East and West Midlands, and provides connections to the M1, M6, and M5. To the south, the M40 connects with the M25.

3 Policy and Guidance

3.1 Introduction

This Framework Travel Plan was prepared with reference to national, regional and local policy, and with regard to best practice from appropriate national and local guidance. This chapter identifies specific national, regional and local policies that are relevant to the proposed development.

3.2 Transport Guidance

3.2.1 Guidance on Transport Assessment

As detailed in the **Introduction** of this report, reference to the indicative thresholds guiding the preparation of Travel Plans provided in Appendix B of the Guidance on Transport Assessment, showed that a Travel Plan would be required for the proposed development.

3.2.2 Good Practice Guidelines: Delivering Travel Plans through the Planning Process (2009)

The Good Practice Guidelines provides information on the use of Travel Plans as a means of promoting sustainable transport. The document brings together the key principles and mechanisms that have been found to help secure effective Travel Plans in England.

The document recognises that the primary focus is on commuter travel and travel in the course of work, and include statements on the strategies to make visitor and freight travel more sustainable.

The development will comprise multiple occupiers and consequently, a Framework Travel Plan was prepared in accordance with the following document principles:

- Framework (umbrella) Travel Plan: an overarching Travel Plan that embraces a large development which may have mixed uses and multiple occupiers/ phases.
- Specific Travel Plans, i.e. Subsidiary Travel Plans: created for developments within the site which would need to be consistent with the wider targets and requirements of the overall Framework Travel Plan.

3.3 National Planning Policy

In May 2010, the Coalition Government published the Coalition Agreement which sets out the five year programme for Government. The document sets out the Coalition Government's key commitments in each policy area, including the role of communities and local government and the role of transport.

Key commitments for communities and local government include, inter alia:

- The devolution of power to local authorities including the abolition of Regional Spatial Strategies to return decision making on planning and housing to local authorities (noting that the High Court ruled in November 2010 that the Government's abolition of Regional Spatial Strategies was unlawful)
- A longer term strategy of empowering neighbourhoods to determine the shape of places in which their inhabitants live
- Publication of a National Planning Framework which will cover all forms of development and will set out key social, environmental and economic objectives

- Provision of incentives for local authorities to deliver sustainable development, including businesses and new homes.

The document also commits to “a presumption in favour of sustainable development in the planning system”, with this policy recently being reinforced in a ministerial announcement following the Budget and in the draft National Planning Policy Framework.

In terms of transport, the document commits to promoting a ‘greener’, more sustainable transport sector, focusing on CO2 emission reductions and investment in new technologies. The key commitments include, amongst other things:

- A national recharging network for hybrid and electric vehicles
- A high speed rail network
- Supporting sustainable travel initiatives for walking and cycling
- Encouraging joint working between local authorities and bus operators.

It is clear therefore that the Coalition Government intend to continue the former Government’s commitment to sustainable travel, including the promotion of local sustainable travel initiatives.

3.3.1 The Draft National Planning Policy Framework

As noted above, the draft National Planning and Policy Framework emphasises that: “At the heart of the planning system is a presumption in favour of economic development” and that “Planning must operate to encourage growth and not act as an impediment”. Therefore, significant weight should be placed on the need to support economic growth through the planning system”.

It also states in paragraph 54 that: “To enable each local authority to proactively fulfil their planning role, and to actively promote sustainable development, local planning authorities need to:

- Approach development management decisions positively – looking for solutions rather than problems so that applications can be approved wherever it is practical to do so
- Attach significant weight to the benefits of economic and housing growth
- Enable the delivery of sustainable development proposals.”

In addition (Paragraph 86), it states that, inter alia planning policies and decisions should consider whether “... improvements can be undertaken within the transport network that cost effectively limit the significant impacts of the development. Subject to these considerations, development should not be prevented or refused on transport grounds unless the residual impacts of development are severe, and the need to encourage increased delivery of homes and sustainable economic development should be taken into account.”

Whilst it is anticipated that the Government’s full commitments will be confirmed in the forthcoming National Planning Framework expected in April 2012, reference has still been made to the former Government’s Transport White Papers and the relevant current national land-use / planning and transport policy set out in planning policy statement (PPS) and planning policy guidance (PPG) notes.

3.3.2 Planning Policy Statement 1 (PPS1 - 2005) – Delivering Sustainable Development

PPS1 sets out the overarching principles for getting planning right, underpinned by the delivery of safe, healthy and attractive places to live. It emphasises the importance of planning in creating

sustainable communities, of reducing the need to travel, and encouraging public transport provision to secure new sustainable travel patterns.

Paragraph 27 identifies the need to reduce car dependency and provide access to services and facilities by modes other than the private car.

Paragraph 35 identifies that planning authorities should ensure that full consideration is given to creating and securing opportunities for sustainable travel in line with Planning Policy Guidance (PPG) Note 13: Transport [see below] through the following:

- *The preparation and submission of Travel Plans;*
- *Providing for safe walking and cycling, including where appropriate secure cycle*
- *Parking and changing facilities; and*
- *An appropriate approach to the provision and management of car parking.*

3.3.3 PPS 1 (2007) – Planning and Climate Change; Supplement to Planning Policy Statement (PPS 1 Supplement)

PPS1 Supplement details the linking of transport and land use as key to the issue of climate change. Paragraph 9 identifies that a key planning objective for development is to optimise possible use of sustainable transport for public transport, cycling and walking, which overall reduces the need to travel, especially by car.

Paragraphs 23 and 24 notes that in deciding which areas and sites are suitable for development, planning authorities should take into account '*whether there is, or the potential for, a realistic choice of access by means other than the private car and for opportunities to serve the sites through sustainable transport*'. The need for a Travel Plan is identified in paragraph 42 when considering the environmental performance of proposed developments.

3.3.4 PPS4 (2009) – Planning for Sustainable Economic Growth

PPS4 sets out the Government's objectives for prosperous societies, which includes achieving sustainable economic growth through:

- Building prosperous communities by improving the economic performance of cities, towns, regions, sub-regions and local areas, both urban and rural
- Delivering more sustainable patterns of development, reduce the need to travel, especially by car and respond to climate change
- Promoting the vitality and viability of town and other centres as important places for communities.

Policy EC10 identifies that planning applications for economic development should be assessed against a number of impact considerations including:

- Whether the proposal has been planned to limit CO₂ emissions, and minimise vulnerability and provide resilience to, climate change over the lifetime of the development
- Accessibility by a range of mode of travel including walking, cycling, public transport and the car, and the effect on local traffic levels and congestions (especially to the trunk road network)
- Whether the development proposal secures a high quality and inclusive design

Through the enhancement of foot and cycle facilities, promotion of existing bus services, and car sharing opportunities, the proposed development will provide future occupants and visitors with a variety of travel options. These options will be facilitated through the implementation of travel planning measures that encourage and raise awareness of travel by sustainable modes.

3.3.5 Planning Policy Guidance (PPG13) – Transport (2011 update)

A revised PPG13 was published by the DCLG in January 2011, which recognised in paragraph 87 that there is no standard format or content for Travel Plans. However, their relevance to planning lies in the delivery of sustainable transport objectives, including:

- *reductions in car usage (particularly single occupancy journeys) and increased use of public transport, walking and cycling*
- *reduced traffic speeds and improved road safety and personal security particularly for pedestrians and cyclists*
- *more environmentally friendly delivery and freight movements, including home delivery services.*

PPG13 also states that a key planning objective is to ensure that jobs, shopping, leisure facilities and services are accessible by public transport, walking and cycling. Other relevant aims include:

- *'Ensuring that interchange points are well related to travel generating uses, and that the design, layout and access arrangements of surrounding development and interchanges are safe and convenient to maximise the walking and cycling catchment population for public transport services*
- *Providing for the needs of disabled people in terms of parking design and layout ensuring that traffic management measures do not impede the effectiveness of public transport services*
- *Identify the potential for improved interchange between transport services and between public transport and walking and cycling, and*
- *Give greater priority to walking, and reduce the actual walking distance between land uses, and to public transport'.*

3.3.6 Emerging PPS – Planning for a Low Carbon Future in a Changing Climate – Consultation

This PPS on Planning for a Low Carbon Future document supplements PPS1 by setting out how planning should contribute to mitigating climate change and adapting to its impacts. The PPS will replace the earlier supplement to PPS1 'Planning and Climate Change' and PPS22 'Renewable Energy' once adopted.

In determining planning applications paragraph 13.2 outlines that local planning authorities should expect proposed new development to create and secure opportunities for sustainable transport by:

- *Implementing Travel Plans when required in line with PPG13 so as to minimise greenhouse gas emissions*
- *Providing for safe and attractive walking and cycling opportunities including, where appropriate, secure cycle parking and changing facilities*
- *Ensuring the provision of car parking is consistent with cutting greenhouse gas emissions, including through providing for electric vehicle charging infrastructure.*

3.4 Local Policy and Guidance

3.4.1 Oxfordshire Local Transport Plan – April 2011 (2011-2030)

Oxfordshire's third Local Transport Plan (LTP3) was adopted by the County Council in April 2011 and this sets out the objectives and plans for developing transport in Oxfordshire up to 2030. The following policies from the LTP3 are relevant in context of the development:

- Policy G5 – the County Council will support sustainable, healthy and inclusive modes of travel and promote changes in travel behaviour to these modes
- Policy TC2 – the County Council will work with major traffic generators to enable sustainable travel and efficient car use for journeys to employment, health, shopping and education in order to reduce congestion
- Policy SD1 – the County Council will seek to ensure that:
 - (i) *The location and layout of new developments minimise the need for travel and can be served by high quality public transport, cycling and walking facilities*
 - (ii) *Developers promote sustainable travel for all journeys associated with new development, especially those to work and education*
 - (iii) *Traffic from new development can be accommodated safely and efficiently on the transport network.*

3.4.2 Oxfordshire County Council – Banbury Area Transport Strategy (April 2011)

A new area strategy was developed as part of the LTP3 and replaces the Banbury Integrated Transport and Land Use Strategy, 2000 (*Ban/ITLUS*) and subsequent follow up study in 2009. This document sets out an area strategy for Banbury and comprises a number of local targets, including:

- Improve facilities for pedestrians, including disabled people, across Banbury
- Projects to improve links between employment and residential areas to key services and destinations such as the town centre, by foot, will be delivered
- Work with Cherwell District Council and developers to ensure new developments are designed to promote permeability on foot both within the site and to link with the existing settlement
- Ensure urban footways join up with rights of way and rural footpaths
- Improve facilities for cyclists and develop schemes which will provide a high quality cycle network
- Measures will involve the provision of additional cycle infrastructure such as cycle lanes/cycle paths, advanced stops lines, and cycle parking where appropriate, with a particular focus to improve accessibility to key destinations
- Ensure that new developments are located and designed to encourage the use of the bus, with particular attention to minimising walking distances to bus stops on the strategic routes. Seek contributions for new bus stops and associated development which are created to serve new development or developments which are an intensification of current use or change of use
- Ensure the provision of good quality bus information at bus stops and local centres
- Improve walking and cycling links from residential and employment areas to the bus stops

- Work with local bus companies to improve and develop bus services on existing routes and new routes in order to increase accessibility to/from residential areas to key facilities and employment sites to the north of the town, in particular
- Work with organisations and businesses to reduce the need to travel by car and reduce inefficient car use by improving availability and quality of travel information and supporting platforms (such as car sharing) to reduce the occurrence of congestion and its impacts
- Ensure developers of new sites in Banbury undertake detailed Transport Assessments and implement travel plans for the residents, employees and users of their sites
- To make the best use of existing road space through appropriate traffic management measures, vehicle routing and use of technology
- To make local improvements to junctions and roads within the town to help reduce delays and traffic congestions
- The A4260 and A361 currently operate as the main north-south routes through Banbury Town Centre. The LTP has identified that the A4260 should become the primary north-south through route.

3.4.3 Cherwell District Council - Draft Core Strategy (2010)

The District Council is in the process of preparing the Core Strategy for the district, which is one of the Development Plan Documents (DPDs) that makes up the LDF. Once complete, the LDF will form new planning policy for the District to 2026 and will replace the old system of District local plans and county structure plans.

A Draft Core Strategy was published by the District Council in February 2010. Relevant objectives from that document include:

- SO 12 – To reduce the dependency on the private car as a mode of travel, increase the attraction of and opportunities for travelling by public transport, cycle and on foot, and to ensure high standards of accessibility for people with impaired mobility

3.4.4 Cherwell District Council - Non-Statutory Cherwell Local Plan 2011

The Non-Statutory Cherwell Local Plan 2011 was intended to “...review and update the local plan adopted in 1996”. However, following changes to the national planning system introduced by the Coalition Government, work on this plan was discontinued prior to adoption. The Non-Statutory Cherwell Local Plan 2011 has now been approved as interim planning policy for development control purposes. In due course, this will be replaced by the Local Development Framework (LDF) which will establish planning policy for the district to 2026.

Relevant transport policies from the Non-Statutory Cherwell Local Plan 2011 include:

- TR3 – A Transport Assessment and Travel Plan must accompany development proposals likely to generate significant levels of traffic
- TR6 – The Council will seek to facilitate the provision and operation of an effective public transport system as a genuine alternative to the use of private vehicles, as far as it is possible to do so through its land use planning powers. This will include where appropriate, giving priority to public transport over generally traffic and making provision for interchange facilities and encouraging integration between different modes of transport.
- TR9 – All new development shall provide cycle parking to Oxfordshire County Council standards

- TR11 – Development likely to attract vehicular traffic will be required to:
 - (i) *Accommodate within the site the necessary highway safety requirements relating to access, turning and servicing*
 - (ii) *Include appropriate measures to minimise the visual impact of vehicles and parking areas*
 - (iii) *Comply with maximum standards for car parking*
 - (iv) *Provide parking for people with disabilities in accordance with the Council's standards*
 - (v) Provide cycle parking in accordance with the Council's standards. Development proposals which do not have regard to these criteria will not be permitted.

4 Travel Plan Governance

4.1 Introduction

This Chapter sets out the overarching responsibilities for travel planning at Southam Road Retail Park, Banbury. The preparation of this Framework Travel Plan for the proposed development of 250,000sqft of retail use offers significant benefits through economies of scale. The areas where benefits can be achieved include the:

- Sharing/ joint preparation of marketing information
- Implementation of Travel Plan measures
- Management of the Travel Plan, including monitoring and review.

However, it is not just a simple case that ‘one glove fits all’, as developers and future occupiers will have specific responsibilities to ensure the continued effectiveness of the Travel Plans. Future occupiers will be required to support the principles of the Framework Travel Plan and would be expected to contribute positively to the sustainability of the site and in achieving the targets set for the development.

4.2 Travel Plan Management Structure

A diagrammatic overview of those involved in delivering effective travel planning at Southam Road Retail Park and the associated Travel Plan documents is shown in **Figure 4.1**.

Figure 4.1 – Overview of Roles and Responsibilities

4.3 Site-wide Travel Plan Co-ordinator

The Good Practice Guidelines states that for large-scale developments the Travel Plan Co-ordinator has a critical role in ensuring that the plan is implemented, managed, monitored and reviewed over time.

Therefore, in order to ensure the success of the efforts towards encouraging sustainable transport use, a Site-wide Travel Plan Co-ordinator will be appointed by the developer for a minimum of 5 years following commencement of development. The Site-wide Travel Plan Co-ordinator will direct the site-wide approach to travel planning for Southam Road Retail Park as detailed in this Framework Travel Plan.

The role of the Site-wide Travel Plan Co-ordinator will include:

- Issuing and explaining the Framework Travel Plan to all new occupiers
- Promotion and encouragement of the use of travel modes other than the car
- Ensuring that relevant and up-to-date information is provided and is clearly displayed
- Maintaining and updating the Framework Travel Plan
- Supporting Subsidiary Travel Plan Co-ordinators where appropriate in developing and maintaining the Subsidiary Travel Plans
- Undertaking annual reviews of the Framework Travel Plan to monitor progress
- Organising and submitting feedback to the County Council
- Liaising with the County Council and stakeholders as and when appropriate

4.4 Subsidiary Travel Plans and Co-ordinators

All units with floor areas exceeding the thresholds set out in Appendix B of the Guidance on Transport Assessment (see the **Introduction** of this report) would be required to prepare stand-alone Subsidiary Travel Plans which will be based on the over-arching principles set out in this Framework Travel Plan.

Each Subsidiary Travel Plan would need to be prepared prior to site occupation and must include the nomination of an individual Subsidiary Travel Plan Co-ordinator. The Subsidiary Travel Plan Co-ordinator will meet with the Site-wide Travel Plan Co-ordinator to discuss the Travel Plans and to set out the occupier's obligation to the Framework Travel Plan.

Whilst the Site-wide Travel Plan Co-ordinator would be expected to offer assistance, it would remain the responsibility of the individual occupier to complete, seek approval to, implement and maintain their Subsidiary Travel Plans.

The Subsidiary Travel Plan Co-ordinators would be expected to:

- Prepare the Subsidiary Travel Plans, which should be submitted to the County Council
- Liaise with the Site-Wide Travel Plan Co-ordinator and other Subsidiary Travel Plan Co-ordinators in Southam Road Retail Park, sharing ideas, co-ordinating efforts and reviewing progress
- Actively promote sustainable travel measures and provide relevant information to the Travel Plan stakeholders
- Represent the 'human face' of the Travel Plans, explaining their purpose and the opportunities on offer
- Act as a focal point on transport related issues
- Ensure that the approved Travel Plan and its component parts are being implemented effectively

- Monitor the Subsidiary Travel Plans at regular intervals and encourage participation of the Travel Plan stakeholders in the monitoring process.

As each new organisation joins the site, the Site-wide Travel Plan Co-ordinator will seek to interlock each organisation to maximise sustainable opportunities for the site as a whole and all future occupiers will be required to endorse the principles of this Framework Travel Plan.

For organisations not requiring a Subsidiary Travel Plan, the Site-wide Travel Plan Co-ordinator will meet with new occupants to seek to agree a range of measures set out to maximise sustainable opportunities for each organisation.

4.5 Travel Plan Forum

It is proposed that a Travel Plan Forum is created which will operate on a voluntary basis or as a network of occupiers in order to co-ordinate actions that encourage sustainable modes of travel.

The Travel Plan Forum will be organised by the Site-wide Travel Plan Co-ordinator who will invite the Subsidiary Travel Plan Co-ordinators as the development proceeds.

These participative sessions will act as local mechanisms for ensuring that the measures being implemented through both the Framework and Subsidiary Travel Plans are effective and understood by all those involved.

The site-wide Travel Plan Co-ordinator will be responsible for providing feedback to the County Council.

5 Travel Plan Strategy

5.1 Travel Plan Scope

The main element of travel that this Travel Plan seeks to address is employee single occupancy commuter trips. Some of the measures being promoted at the site for employees will also be appropriate for visitors.

5.2 Objectives

This Travel Plan is targeted at combating over-dependency on cars by boosting and encouraging alternatives to single occupancy car use. In order to do this, the Travel Plan has the following broad objectives:

- To encourage and promote increased use of cycling, walking and public transport among staff and visitors
- To provide an attractive, secure and safe environment for employees and visitors to access the development
- To provide conditions that enable staff and visitors to make sustainable travel choices
- To incite positive changes in the attitudes of staff and visitors in relation to utilising alternative transport modes.

5.3 Targets

Setting targets is essential in assessing whether or not a Travel Plan has been successful and where, if necessary, improvements could be made. These targets need to be realistic to the development under consideration and clearly illustrate the reductions in car use expected as a result of the Travel Plan measures adopted.

The overarching goal of the Travel Plan is to reduce car use. A preliminary 10% reduction in commuter single occupancy car use for staff has been set and this is to be achieved within 5 years of occupation. To measure progress towards this target, an initial baseline has been set using 2001 Census data. This data was for 'Method of Travel to Work' (Daytime Population) for the Banbury Neithrop Ward.

In order to achieve a 10% reduction in single occupancy car driver trips, the potential for a shift in sustainable travel modes to reduce car journeys was predicted based on local conditions and the measures to be implemented as part of the proposed development. These workings are provided in **Table 5.1**. The predicted mode shifts by sustainable travel modes are not fixed but are intended to give an indication of how the 10% reduction in single occupancy car trips could be achieved.

Mode Share	Car Driver	Car Passenger	Foot	Cycle	Bus	Motor-cycle
Development Base Mode Share (based on Census Data)	68.0%	9.1%	15.1%	5.1%	1.4%	1.3%
Percentage Mode Shift Change	10%	45%	10%	20%	20%	0%
Change in Mode Share	6.8%	4.1%	1.5%	1.0%	0.3%	0%
Potential Future Mode Share	61.2%	13.2%	16.6%	6.2%	1.7%	1.3%

Table 5.1– Preliminary Target Mode Share for Southam Road Retail Park (Subject to Rounding)

The assumptions behind the predicted shifts in sustainable travel modes shown in **Table 5.1** are outlined below:

- Car passenger – Given that car sharing will be promoted as part of the travel strategy for the proposed development (through the dissemination of marketing material and by directing employees and visitors to www.oxfordshireliftshare.com), an increase in car passenger mode share is appropriate. A mode shift of 45% travelling as a car passenger is therefore considered achievable,
- Walking and Cycling – Promoting and incentivising journeys to work by foot and cycle are a key part of the accessibility strategy for the proposed development. It is therefore reasonable to assume that there would be some increase in walk/cycle mode share from the base situation, particularly given the cycle facilities provided on Southam Road. A mode shift of 10% by foot and 20% by bicycle is considered achievable for the development,
- Public transport – Employees and visitors will be able to use existing bus services in the area to access the site and these services will be promoted by the Travel Plan Co-ordinators. A mode shift of 20% is therefore considered achievable for the site.

These predicted mode shifts by sustainable travel modes are not fixed, but are intended to give an indication of how the 10% reduction in single occupancy car trips could be achieved.

The Travel Plan targets and baseline will be revised following occupation of the site. To do this employee questionnaires will be carried out within 3 months of site occupation which will provide information such as:

- Where the employee lives
- Which mode of transport the employee uses to travel to work
- How long the journey to and from work takes
- Working hours and frequency of trips
- Could the employee potentially work from home?

As detailed in the Good Practice Guidelines, a number of indicators should be used to inform progress towards the targets set, including the:

- Percentage of employee trips made by foot
- Percentage of employee trips made by cycle
- Percentage of employee trips made by bus
- Percentage of employee trips made by train
- Percentage of employee trips made by car as a passenger.

Collating this information will provide an opportunity to analyse employee journeys by the private car and identify those that can potentially be switched to alternative transport modes. These results can then inform the annual targets for employee vehicle trips. The Site-wide Travel Plan Co-ordinator will then seek to agree these targets with the County Council.

The monitoring of these mode split indicators will offer greater understanding of the changing travel needs of employees, the success of the sustainable measures being implemented, and also where travel planning efforts could be focussed in the future in order to meet the targets set. Further information on the Travel Plan monitoring regime is provided in **Section 7.1**.

5.4 Measures

In order to meet the targets of the Travel Plan, a package of measures will be implemented to provide greater travel choice and promote a shift towards more sustainable modes of travel. These measures will be secured through the planning agreement and fall into the following categories:

- Marketing
- Walking
- Cycling
- Bus
- Car Sharing
- Taxi.

5.4.1 Marketing

As stated in the Good Practice Guidelines, promotion and marketing are vital to effective travel planning. In order to deliver the kind of cultural and behavioural shift required to meet the targets, there will need to be a sustained and long-term commitment to communicating and marketing the Travel Plan to staff. Marketing campaigns will therefore need to be updated and refreshed to ensure that interest in sustainable travel is maintained among staff, and that efforts towards influencing travel behaviour remain effective.

According to The Essential Guide to Travel Planning, the hallmarks of successful Travel Plan marketing are lively presentation, persistence and a readiness to use a range of marketing tools and techniques. As such, marketing the Travel Plan will take place through a variety of forms, including electronic media, leaflets and displays, in order to achieve maximum exposure and Travel Plan awareness.

Marketing the Travel Plan will incorporate strong facts and figures supporting the case for sustainable travel practices. These could include the following statistics taken from reports by the DfT, Office of National Statistics, and Department of Health:

- More than 8 out of 10 cars used for commuting or for business have just one person in them
- One-quarter of all car journeys are less than 2 miles and over half are less than 5 miles
- Half an hour of daily exercise, such as a walk or cycle ride to work, can halve your risk of heart disease.

Travel information notice boards will be located within the site, providing up-to-date and clear information on sustainable travel opportunities in the local area including the contact details of the Travel Plan Co-ordinators.

These will include details on public transport, promotional material on the benefits of sustainable travel and where appropriate information on upcoming events and activities.

5.4.2 Walking

PPG13: Transport states in paragraph 75 that *'walking is the most important mode of travel at the local level and offers the greatest potential to replace short car trips, particularly under 2km'*.

As part of the proposals the existing foot and cycleways will be incorporated into the site access design providing enhanced linkages to the existing foot and cycle facilities provided on both sides of Southam Road (A361) which enable convenient access to the existing bus stops located 220m from the centre of the site to the north as well as the local shops and other amenities (fast food, post office, etc) provided within 1km to the south of the site in Banbury Town Centre.

Pedestrian facilities are proposed to be provided to Ruscote Avenue via PROW 120/100 allowing for direct connection to the residential areas to the west and south of the site for potential employees and customers. As part of the development proposals the site will seek to connect to PROW 120/100 prior to the point where it connects with PROW 120/101 and 120/98. These proposals will also provide a direct connection to the bus stop on Longelandes Way.

To maximise use of the existing linkages improvements to PROW 120/101 between PROW 120/100 and Ruscote Avenue and PROW 120/100 between PROW 120/101 and the site are proposed in terms of lighting to provide a safe and secure environment for users. Additionally widening the existing 1.5m tarmac surface will be explored. These proposals are subject to any issues that may arise in terms of third party land.

At a meeting with the County Council on 26th January 2012 to discuss the site access support was offered in terms of providing connection from Ruscote Avenue to the site via PROW 120/101 and 120/100. The County Council agreed that additional lighting should be provided along PROW 120/101, and outlined that there is also an opportunity to widen the footpaths to between 2m and 3m. The details of lighting provision and any footpath widening would need to be explored with the County Council at the detailed design stage.

The County Council suggested the most straight forward mechanism for all parties in terms of undertaking any physical works to the PROW would be for the developer to provide a contribution towards the improvements. This will reduce any third party land issues that may occur in terms of ownership of the edgings either side of the tarmac areas. If the link to the PROW from the site can be provided a contribution provided by the client will be finalised at the detailed design stage.

Additionally the following measures are to be implemented to promote and encourage walking as a mode choice at Southam Road Retail Park:

- Promotional events such as 'Walk to Work' days or weeks
- Subsidiary newsletters and posters promoting the health and environmental benefits of walking
- Maps illustrating safe walking routes to relevant points of interest, including reference to crossing points and public transport facilities
- Personal alarms or self-defence training for staff that have fears over personal security
- A pool of umbrellas for staff use.

5.4.3 Cycling

PPG13: Transport states in paragraph 78 that '*cycling has the potential to substitute for short car trips, particularly those under 5km, and to form part of a longer journey by public transport*'.

As outlined above the access to the site will incorporate the existing cycle routes along Southam Road (A361) into the site offering a seamless connection for cyclists. On site to facilitate and encourage cycling by staff and visitors secure cycle parking facilities will be provided on site. The total number of cycle parking spaces provided on site will be outlined at the detailed planning stage. Additionally the following measures are to be implemented to promote and encourage cycling as a mode choice at Southam Road Retail Park:

- Promotional events such as:
 - Free 'Cyclist Breakfast' events. A company can offer up to six cyclists' breakfasts a year tax free
 - Bike2Work week, which is the United Kingdom's largest mass participating cycling event and provides an annual opportunity for promoting cycling as a source of fitness and fun, as well as an alternative form of transport
- Incentives for people to cycle, for example free high-visibility gear, mini cycle computers, wet weather gear, panniers, locks, and lights
- Participating in Oxfordshire's BUGs such as 'Oxcycle'. Details relating to Oxcycle are available at www.groups.yahoo.com/group/oxcycle
- Promoting the benefits that cycling offers in terms of health, wellbeing and finance
- Providing a puncture repair kit in a central location. Alternatively, free kits could be offered to cyclists.

5.4.4 Bus

In order to support predicted demand for access to public transport, staff will be able to utilise the existing bus services in the area.

The proposals to connect to PROW 120/101 would provide a direct, convenient and safe route for visitors and employees to the bus stop on Longelandes Way via an existing signalised pedestrian crossing which can be used to safely cross Ruscote Avenue.

The site access provides a seamless connection into the existing foot/cycleway on Southam Road (A361) which in turn enables direct access to the bus stops to the north-east and south-east of the site on Southam Road (A361).

The following measures will be implemented to promote the take-up of patronage of local bus services:

- Staff will be made aware of the public transport options available to them with respect to their journey to and from work through, for example, providing easy to understand bus timetables and maps
- Bus information will be provided through promotional leaflets, staff notice-boards, the organisation's intranet service and, if appropriate, a public transport helpline service for staff.

5.4.5 Car Sharing and Parking Provision

Car sharing can be an effective way of reducing congestion on the road and managing car parking demand, and involves two or more people sharing a car for a journey to and/or from a location, whether it be work, school, leisure facilities, or shops. The benefits of car sharing can include:

- Reductions in the number of cars on the roads, resulting in less congestion, less pollution and fewer parking problems
- Providing employers and employees with more transport choice
- Reducing the need for private car ownership

- Money savings.

Measures to promote the use of the car will include management of the staff car parking facilities within the Southam Road Retail Park site. The following measures will be implemented to promote car sharing:

- Monitoring and reviewing the use of the car share spaces to ensure these parking spaces are used appropriately
- Providing a guaranteed ride home service for staff car sharers in case of an emergency. This means that if a staff member who is car sharing is unable to return home (for example if their car share partner goes home sick) then they will be able to get home
- Informal 'car share coffee mornings'. Staff interested in car sharing are invited to meet potential sharers, receive guidance and have questions answered
- Displaying car share posters on notice boards and distributing car share information
- Providing incentives to car sharers, for example prize draws for a free/subsidised MOT, car wash and valet
- Free emissions testing for car share users, which would involve calculating how much carbon dioxide could be reduced by car sharing. The results of these tests could be publicised to further promote car sharing
- Promoting the use of car share parking bays and car sharing through the Oxfordshire car share scheme which is run by the County Council and is free to join. Details are available on the County Council webpage www.oxfordshire.liftshare.com.

If the proportion of car share spaces, visitor spaces, operational spaces and general staff spaces needs to be reviewed as a result of the findings from the travel surveys, this will be undertaken by the Travel Plan Co-ordinators.

In terms of car parking, the total number of spaces provided on site will be identified at the detailed design stage. The proposed development will look to respond to the maximum parking standards outlined in Appendix B of the District Council Local Plan.

6 Implementation and Phasing

6.1 Introduction

The Good Practice Guidelines state that Travel Plans are living documents that need to be updated regularly and implementing a Travel Plan involves “a *continuous process for improving, monitoring, reviewing and adjusting the measures in the plan to reflect changing circumstances*”.

In line with this guidance, a continuous management approach is proposed for the Framework Travel Plan and this is represented diagrammatically in **Figure 6.1**.

Figure 6.1 – Travel Plan Implementation Approach

6.2 Action Plan for Measures

The measures detailed in **Chapter 5** will be implemented as indicated in **Table 6.1**.

Cycle and car parking provision will be provided on a plot-by-plot basis and outlined at the detailed design stage.

Measures/ Marketing Strategy	Timescale
Appoint Site-wide Travel Plan Co-ordinator	Prior to occupation of any unit
Appoint Subsidiary Travel Plan Co-ordinators	Within 1 month of occupation of any unit exceeding the relevant thresholds
Complete initial Travel Plan Co-ordinator tasks, including marketing material	Within 1 month of occupation of any unit
Travel Plans to be submitted to the County Council	Prior to occupation of each unit requiring a Travel Plan
Measures to promote sustainable travel including meeting new occupants	Within 1 month of occupation of any unit
Set up Notice Boards	Within 1 month of occupation of any unit, and to be updated every 6 months or as necessary
Undertake initial Travel Surveys	Within 2 months of occupation of any unit
Complete monitoring of Framework Travel Plan targets	One year after Travel Plan approved, and then annually thereafter
Complete monitoring of Subsidiary Travel Plan targets	One year after Travel Plan approved, and then annually thereafter
Complete reviews of the Travel Plans	One year following Travel Plan approved, and then annually thereafter
Initiate Travel Plan Forums	Within 1 month of occupation of any unit exceeding the relevant thresholds
Continue with monitoring and review of Travel Plans	Annually following occupancy of any units

Table 6.1 – Summary of Soft Measures Proposed

6.3 Funding and Handover

The developer will be responsible for funding the Travel Plan and the Site-wide Travel Plan Co-ordinator, and will provide sufficient funds to ensure that the Travel Plan remains active and current for a minimum of 5 years from commencement of development.

In the long term, the ownership of the Travel Plan will ultimately rest with the future occupants and local authorities and an appropriate handover mechanism will be agreed one year before the expiry of the Framework and any Subsidiary Travel Plans.

7 Management

7.1 Monitoring

The Site-wide Travel Plan Co-ordinator will be responsible for monitoring progress towards meeting the target mode share targets for the Southam Road Retail Park development as a whole for a minimum of 5 years following commencement of development. Monitoring will involve:

- Distributing annual travel questionnaires
- Monitoring the use of car and cycle parking where appropriate
- Recording the uptake car sharing
- Recording the uptake of any incentives proposed
- Conducting multi-modal traffic/travel surveys in line with the indicators, to and from the site on an annual basis, identifying both travel needs and current travel modes at least annually
- Co-ordinating and guiding the Subsidiary Travel Plan Co-ordinators on relevant monitoring data collection methods
- Collating the travel monitoring data from the Subsidiary Travel Plan Co-ordinators for analysis, summarising and submission to the County Council through the Annual Performance Reports discussed below
- Liaising with the County Council over the monitoring process and acting as the main point of contact.

The specific Subsidiary Travel Plans monitoring regimes would need to be agreed with the County Council. At this stage, it is expected that these would involve:

- Distributing annual travel questionnaires
- Monitoring the use of car and cycle parking where appropriate
- Recording the uptake car sharing
- Recording the uptake of any incentives proposed
- Liaising with the Site-wide Travel Plan Co-ordinator on relevant monitoring data collection methods

7.1.1 Travel Questionnaire Surveys

To understand how effectively occupants' travel needs are being met and whether the Travel Plan targets are being met, annual questionnaire surveys will be undertaken by the Travel Plan Co-ordinators. The information collected by the surveys will be used by the Travel Plan Co-ordinators to ascertain whether there have been any significant changes in staff travel behaviour. The results of the questionnaires will also be used for indicator monitoring and will inform the Travel Plan strategy for the next year.

The results of the surveys for the Travel Plans will be fed back to the Site-wide Travel Plan Co-ordinator, who can then collate the information and build up a picture of multi-modal travel patterns.

This information can then be used to help identify where the greatest potential for future mode shift lies. The Site-wide Travel Plan Co-ordinator will also liaise with the Subsidiary Travel Plan Co-ordinators to ensure that a consistent approach to monitoring is adopted across the site.

For those occupants with Subsidiary Travel Plans, the first of the annual travel questionnaire surveys will be undertaken within 2 months of occupation.

7.2 Review

The results of the monitoring for the Travel Plans will feed into the Framework Travel Plan reporting process overseen by the Site-wide Travel Plan Co-ordinator. An Annual Performance Report will be prepared and this should include the following sections:

- *Introduction and Background.* This will provide information on the site/land use to which the report relates and provide details on the individuals involved
- *Results of the Surveys.* This section will detail the results of the surveys that have been undertaken against the indicators set out in the Travel Plan. It will include information on the current travel situation and target levels
- *Initiatives Undertaken.* This will provide details on the measures and initiatives undertaken over the previous 12 months and provide supporting evidence where necessary
- *Problems and Issues.* This section will highlight any problems encountered in implementing the Travel Plan and clarify any issues which remain unresolved and/or require additional attention
- *Specific Measures from the Travel Plan.* This section will detail how all the Travel Plan measures have been implemented and how specific travel modes have been promoted
- *Summary.* This section will set out whether the Travel Plan is on track to meet its targets and if not why not
- *The Plan for the next 12 months.* This will include the anticipated, specific outcomes, the desired results, and any amendments to the Travel Plan.

The final monitoring and reporting regime for the site will be dependent on the build out phases of the development, and shall be agreed with the County Council.

8 Summary

This Framework Travel Plan has set out the guiding principles, outcomes, targets and measures to be implemented to facilitate and deliver opportunities to travel by sustainable modes at Southam Road Retail Park. This Framework Travel Plan provides a mechanism for the delivery of measures which will be secured through the planning agreement, in the form of promoting car sharing, the use of existing bus services and walking facilities, the inclusion of an onsite shared foot and cycleway and cycle parking facilities as well as a commitment to reducing the dependency on the private car, in such a way to allow flexibility in the delivery of the measures. This flexibility is an important element of the Travel Plan, and is required to ensure that the Travel Plan is used to achieve a sustainable travel culture when the site is developed, and therefore reflects conditions at the time of implementation.

The governance section of this Framework Travel Plan sets out the responsibility of the Site-wide Travel Plan Co-ordinator, future occupants and ultimately the Subsidiary Travel Plan Co-ordinators across the site. This governance structure, underwritten by a financial commitment to support travel by sustainable means, demonstrates commitment to supporting sustainable development and maximising the benefits of travel planning.

The targets set in this Framework Travel Plan, and the indicators identified to determine whether these targets are being achieved, were established to limit the impact of development related trips on to the highway network, but also to ensure that sustainable travel patterns are maintained. These targets and the mode share baseline will be reviewed following occupation of the site, and these will be complemented by further targets set in the subsidiary workplace Travel Plans.

Service Restrictions: Tu - Operates only on Tuesdays

Notes: § - Time at this stop is indicative. You are advised to be at any stop several minutes before the times shown

Saturdays

No service

Sundays

No service

For next departures from a particular stop you can use **traveline-txt** - by sending the SMS code (followed by a space and the service number if you want a specific service - eg: **buctdgt 60**) to **84268**. Or you can use the mobile internet by using the code to locate the stop on **NextBuses**. For details of both these services see www.traveline.info/onmove.htm. The return message from **traveline-txt** is free for codes prefixed **cmb**, **lin**, **nfo** and **suf** (East Anglia and Lincolnshire); for all other codes it is 25p. **NextBuses** incurs standard internet usage charges.

Information about next departures is available on mobile internet on phones and PDAs using the SMS code - go to www.mytraveline.mobi. Only normal browsing charges apply.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Sundays

No service

For next departures from a particular stop you can use **traveline-txt** - by sending the SMS code (followed by a space and the service number if you want a specific service - eg: **buctdgttd 60**) to **84268**. Or you can use the mobile internet by using the code to locate the stop on **NextBuses**. For details of both these services see www.traveline.info/onmove.htm. The return message from **traveline-txt** is free for codes prefixed **cmb**, **lin**, **nfo** and **suf** (East Anglia and Lincolnshire); for all other codes it is 25p. **NextBuses** incurs standard internet usage charges.

Information about next departures is available on mobile internet on phones and PDAs using the SMS code - go to www.mytraveline.mobi. Only normal browsing charges apply.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Sundays

No service

For next departures from a particular stop you can use **traveline-txt** - by sending the SMS code (followed by a space and the service number if you want a specific service - eg: **buctdgttd 60**) to **84268**. Or you can use the mobile internet by using the code to locate the stop on **NextBuses**. For details of both these services see www.traveline.info/onmove.htm. The return message from **traveline-txt** is free for codes prefixed **cmb**, **lin**, **nfo** and **suf** (East Anglia and Lincolnshire); for all other codes it is 25p. **NextBuses** incurs standard internet usage charges.

Information about next departures is available on mobile internet on phones and PDAs using the SMS code - go to www.mytraveline.mobi. Only normal browsing charges apply.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

**Important information at 11:41:43 on 30 September 2011****Banbury Michaelmas Fair, 18-22 Oct.****Affected stops:*****Banbury Town Centre, Bridge Street******Banbury Town Centre, Bus Station***

Some roads in central Banbury will be closed for the Michaelmas Fair (18th-22nd October).

Bus services normally using the Bridge Street stops will be relocated to within the Bus Station for the duration.

Timetables

Select a timetable using the bookmarks (on the left of this page). Choose the direction and day of travel you require.

Timetables can be viewed in the summary "main stops only" format or in the detailed "all stops" version.

Stop and Street Names and SMS codes are also available.

The information on this timetable is expected to be valid until at least 26th October 2011. Where we know of variations, before or after this date, then we show these at the top of each affected column in the table.

Direction of stops: where shown (eg: W-bound) this is the compass direction towards which the bus is pointing when it stops.

Stagecoach in Oxfordshire

For next departures from a particular stop you can use **traveline-txt** - by sending the SMS code (followed by a space and the service number if you want a specific service - eg: **buctdgt 60**) to **84268**. Or you can use the mobile internet by using the code to locate the stop on **NextBuses**. For details of both these services see www.traveline.info/onmove.htm. The return message from **traveline-txt** is free for codes prefixed **cmb**, **lin**, **nfo** and **suf** (East Anglia and Lincolnshire); for all other codes it is 25p. **NextBuses** incurs standard internet usage charges.

Information about next departures is available on mobile internet on phones and PDAs using the SMS code - go to www.mytraveline.mobi. Only normal browsing charges apply.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

**B8****Banbury - Hardwick - Neithrop - Banbury (Circular)**

Stagecoach in Oxfordshire

Important information at 11:07:44 on 30 September 2011**Banbury roadworks affecting route B8**

It is expected that roadworks will take place from 19th - 21st October at the junction of Daimler Avenue, Longelands Way and Nuffield Drive, affecting **Stagecoach** route **B8**.

The 'Longelands Close' bus stop will need to be closed; it is hoped that a temporary stop will be provided to the east of the junction with Chetwode.

Resurfacing work in Banbury affecting service B8, 18-20 Oct.

Resurfacing work in north-west Banbury may affect the operation of **Stagecoach** service **B8** between 18th and 20th October. Please see local operator publicity.

It is likely that Nuffield Drive north of Riley Drive will be closed on 18th October, and that parts of Longelands Way and Daimler Avenue will be closed on 19th and 20th October.

Banbury Michaelmas Fair, 18-22 Oct.**Affected stops:*****Banbury Town Centre, Bridge Street******Banbury Town Centre, Bus Station***

Some roads in central Banbury will be closed for the Michaelmas Fair (18th-22nd October).

Bus services normally using the Bridge Street stops will be relocated to within the Bus Station for the duration.

Timetables

Select a timetable using the bookmarks (on the left of this page). Choose the direction and day of travel you require. Timetables can be viewed in the summary "main stops only" format or in the detailed "all stops" version.

Stop and Street Names and SMS codes are also available.

**B10****Banbury : Town Centre - Hardwick - Tesco - Town Centre (Circular)**

Heyfordian Travel

The information on this timetable is expected to be valid until at least 26th October 2011. Where we know of variations, before or after this date, then we show these at the top of each affected column in the table.

Direction of stops: where shown (eg: W-bound) this is the compass direction towards which the bus is pointing when it stops.

Sundays

No service

**B10****Banbury : Town Centre - Hardwick - Tesco - Town Centre (Circular)**

Heyfordian Travel

For next departures from a particular stop you can use **traveline-txt** - by sending the SMS code (followed by a space and the service number if you want a specific service - eg: **buctdgttd 60**) to **84268**. Or you can use the mobile internet by using the code to locate the stop on **NextBuses**. For details of both these services see www.traveline.info/onmove.htm. The return message from **traveline-txt** is free for codes prefixed **cmb**, **lin**, **nfo** and **suf** (East Anglia and Lincolnshire); for all other codes it is 25p. **NextBuses** incurs standard internet usage charges.

Information about next departures is available on mobile internet on phones and PDAs using the SMS code - go to www.mytraveline.mobi. Only normal browsing charges apply.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Heyfordian Travel

Important information at 10:38:21 on 30 September 2011**Service B10 diverted in Banbury**

The Rother Road bus gate is being repaired. The end date for these works is not yet known.

Heyfordian Travel service **B10** will proceed outwards via Warwick Road to the northern perimeter road at Hanwell Fields, then Hanwell East estate (Hanwell Arms) and Central estate (Winter Gardens Way), then along Usher Drive as far as the north side of the bus gate, reversing there before returning via Usher Drive to perimeter road and Warwick Road back into Banbury.

Banbury Michaelmas Fair, 18-22 Oct.**Affected stops:*****Banbury Town Centre, Bridge Street******Banbury Town Centre, Bus Station***

Some roads in central Banbury will be closed for the Michaelmas Fair (18th-22nd October).

Bus services normally using the Bridge Street stops will be relocated to within the Bus Station for the duration.

Timetables

Select a timetable using the bookmarks (on the left of this page). Choose the direction and day of travel you require. Timetables can be viewed in the summary "main stops only" format or in the detailed "all stops" version. Stop and Street Names and SMS codes are also available.

Welcome

This timetable

In this booklet you'll find full details of all Chiltern Railways trains, including our Mainline services. There are other trains between Kidderminster, Birmingham and Leamington Spa run by London Midland, between Birmingham, Banbury and Oxford run by CrossCountry, between Banbury and Oxford run by First Great Western and between Amersham and London run by London Underground. Call National Rail Enquiries for full details.

From the Managing Director

Hello, and welcome to Chiltern Railways.

Winter timetable

Following the major changes to the Chiltern Railways timetable in September, there are fewer alterations in the December 2011 update.

The majority of these alterations are designed either to improve punctuality or to provide more seats on specific trains – in most cases in response to your comments on the September timetable. On the Aylesbury via Amersham line we have made changes to several peak time trains at London Underground's request. This is because of major changes to the timetable on the Metropolitan Line with which we share the tracks.

We have also listened to your comments and reverted back to a single timetable booklet containing all our services, including Mainline trains.

We're open at weekends

Following the completion of our route upgrade we are now once again running trains regularly at weekends. While routine maintenance work means late Saturday night and Sunday morning closures on part of the route (primarily between Leamington Spa, Banbury and Bicester North), we are open all day Saturday and on Sunday afternoons and evenings throughout most of the network.

With a maximum return fare of just £25 for many weekend journeys on our network, a great day out can be great value. We also offer a fantastic GroupSave deal for off-peak travel – 3 or 4 people can travel for the price of 2. As a Chiltern Railways passenger you can save even more money with our 2 for 1 entry deals to over 150 great attractions the full length of the line. And don't forget there are also lots of things to do for free, especially in London. Pick up a copy of our Days Out Guide or visit chilternrailways.co.uk/daysout for inspiration on things to do.

Now our trains are so much faster, you'll have more time to enjoy your day out!

Thank you for travelling with us.

Rob Brighouse
Managing Director

Our trains and stations

Mainline services

Mainline Trains

Most of our West Midlands – London trains are Mainline services, shown in timetables with an **M** symbol. Mainline trains are designed to offer a relaxing and productive travel environment with:

- Free wifi in every carriage
- Plug sockets at every seat
- Table seating for 50% of seats with tray tables at all others
- At-seat catering service on trains shown with a **LP** symbol.
- Quiet zone

Silver Trains

Some Mainline services are run by our Silver trains, shown in timetables with an **S** symbol. As well as all the facilities on other Mainline trains, they also offer:

- A Business Zone carriage with wider seats, large tables for every seat, single seats for privacy and reservations available. A dedicated host is available to serve tea and coffee (at no charge) and sell any item from the on-board Espresso Bar. A supplement is payable to use the Business Zone.¹
- Table seating for 80% of seats with tray tables at all others
- On-board Espresso Bar serving drinks, freshly cooked bacon rolls and pastries on morning trains and freshly toasted panini on evening trains

¹ The 1055 departure from Birmingham Moor Street and the 1337 departure from London Marylebone do not offer a dedicated host or reservations. On these trains the Business Zone area may be used without payment of a supplement.

Bikes on trains

Subject to space being available, and at the discretion of our staff, you can take your bike (except tandems) on any Chiltern Railways train on Saturdays, Sundays or Public Holidays. On Mondays to Fridays you can also use most of our trains. The only exceptions are our busiest peak hour services. For the safety and comfort of all our passengers bikes are not allowed at any point during the journey on any train:

- Arriving London Marylebone or Birmingham Moor Street from 0745 to 1000
- Leaving London Marylebone or Birmingham Moor Street from 1630 to 1930

On trains shown in this timetable with an **S** symbol you must put your bike in the special storage area at one end of the train. We are sorry, but bikes can not be taken on rail replacement buses at any time. There are no restrictions on folding bikes at any time, provided they are fully folded.

For information about cycle storage facilities at our stations see our website. Cycles can be hired from just outside London Marylebone station. For information visit www.tfl.gov.uk/barclayscyclehire.

Closing doors

Train doors are closed up to 30 seconds before the train leaves the station to ensure punctual departures.

Parking

You can park at most of our stations – Check our website for prices.

3 for free*

Turn up with at least 3 adults in your car, all making an onward rail journey, and you can park for free if you arrive between 0600 and 0900 inclusive. Available on Mondays to Fridays (except Public Holidays) at all our stations.

*Ask your car park attendant for more details. Not valid for overnight parking. Only at stations managed by Chiltern Railways. See page 14 for station details.

No smoking

Smoking is not allowed on any of our stations or trains. No smoking areas are clearly signed. Please respect the law and do not smoke where the ban applies.

Mobility impaired travel

If you're disabled or in need of a bit of help, give us 24 hours notice of your needs and we can make special arrangements for travel from any of our staffed stations.

Phone: 08456 005 165 (0800 – 2200)

Textphone: 08457 078 051

Lost property

If we find any item of lost property, we'll always do our best to contact the owner if they can be identified. Items can be collected from London Marylebone up to three months after they've been handed in – we charge a collection fee to cover our administration costs. If you lose something on one of our trains or stations you can report it by:

- Using the online form on our website
- Using a Lost Property form available at any Chiltern Railways ticket office, and returning it to a member of Chiltern Railways Staff
- By phone, fax or post using the contact details below;

Phone: 08456 005 165

Fax: 020 7333 3002

Write to: Chiltern Railways Lost Property,
Marylebone Station,
London, NW1 6JJ

Lost Property Office Operating Hours: Mondays to Fridays 1200 – 2000. Please allow up to two weeks for processing lost items. If you do not hear from us in that period, you should assume the item has not been found.

Passenger's Charter

The Passenger's Charter is a statement of our commitment to provide high quality service. It spells out the standards against which we can be measured.

- 93.75% of all trains during peak times to arrive at destinations within 5 minutes of scheduled times.
- 99% of all weekday trains to run.

Posters showing our performance are displayed at our major stations. If we fall short, we'll give discounts on renewal of monthly or longer period season tickets. We'll also compensate you if you're delayed for 30 minutes or more on any leg of your journey with us. Our compensation policy is explained fully in our Passenger's Charter, although we'll consider each claim on its merits. You can download a copy from our website or pick up a printed version at any of our staffed stations.

Pocket timetables

You can pick up pocket timetables for many journeys from the appropriate staffed stations. You can even create your own timetable that's tailor made for the journeys you make, which you can download, save to your computer and print off. Visit the 'Create Your Own Timetable' section of our website.

Buying tickets

Online

Tickets will be sent by first class post, or you can collect them from the FastTicket machines at most of our stations. For many journeys our great value 'Advance' tickets can also be printed at home or sent as a bar-code to your mobile phone.

Web: www.chilternrailways.co.uk

By phone

Tickets will be sent by first class post or you can collect them from the FastTicket machines at most of our stations. Alternatively, download our free App to buy tickets and check times direct from your mobile.

Phone: 08456 005 165 (0800 – 2200)

In person

Buy tickets for any UK rail journey at all our staffed stations. At most stations you can also book seats for those National Rail services which offer reservations.

Business accounts

If you're buying train tickets on behalf of a company, large or small, our free Business Travel Service may be able to help. Simply tell us your requirements and our team will arrange your tickets for you.

Phone: 01494 420 177 (0915 – 1700 Monday to Friday)

Getting the right tickets

We have a wide range of great value tickets to suit everybody's needs – commuters, business travellers, students, senior citizens, families and small and large groups. Check our website for the latest information. Full price 'Anytime' tickets are generally valid on any train. Cheaper tickets, such as Off-Peak Day Returns and Off-Peak Day Travelcards, are generally valid on trains arriving in London after 1000. Our best value bargain 'Advance' tickets may have further restrictions. To avoid being liable for a Penalty Fare please make sure before you travel that your ticket is valid.

Penalty fares

When travelling with Chiltern Railways you must carry a valid ticket for your entire journey. If a station doesn't have a ticket office, or the ticket office is closed, buy a ticket from the self-service ticket machine on the station. If the ticket you require isn't available from the self-service ticket machine, then you must buy a 'Permit to Travel' from the machine on the station. Where these are not available, you must buy a ticket at the first opportunity during the journey.

Failure to buy a valid ticket for your entire journey may leave you liable to pay a Penalty Fare. This will be £20 or twice the appropriate full single fare to the next station stop, whichever is the greater.

Onward travel

Connections

Where a connecting train is shown in this timetable, we've allowed sufficient time for you to change trains. You should allow a minimum of 5 minutes if making connections with other train operators' services. Trains will not normally be held for late running connections.

Leamington Spa and Banbury connections

CrossCountry runs an extensive network from Leamington Spa and Banbury to hundreds of places across Britain, including Southampton, Bournemouth, Manchester, Sheffield, York, Glasgow and Edinburgh.

Birmingham New Street connections

It's an easy 10-minute walk from Moor Street and trains run to most parts of the UK.

Travelling between Princes Risborough and Aylesbury

For much of the day, a shuttle train operates the service between Princes Risborough and Aylesbury. It will normally wait up to 10 minutes for late running trains from London and High Wycombe, unless this will cause knock-on delays to other trains on the single line between Princes Risborough and Aylesbury. If we are unable to hold the shuttle, please go to the ticket office, where we will arrange alternative transport. If the office is closed, passenger help points are on platforms 2 and 3.

Unfortunately, we cannot delay London-bound trains at Princes Risborough if the shuttle from Aylesbury is running late. However, should your journey be delayed by 30 minutes or more as a result, you are entitled to compensation as per our Passenger's Charter, copies of which are available at all our staffed stations.

Other operators

Metro & Underground

London Underground and Midland Metro connections are shown in the map on page 54, and there is a central London Underground map on the back cover.

West Midlands public transport information

Phone: 0871 200 22 33
Website: www.networkwestmidlands.com

London Underground & bus info

Phone: 0843 222 12 34
Website: www.tfl.gov.uk

TrainTaxi

Gives you information about how to bridge 'those final few miles' between the station and your destination. TrainTaxi is the unique database of phone numbers for cab firms at all National Rail stations in Great Britain.

Website: www.traintaxi.co.uk

Buses

Add PLUSBUS to your train ticket for unlimited bus travel around town, at the start, finish, or both ends of your train journey. Each town with a PLUSBUS ticket has one zone covering the whole urban area – you can travel as much as you like on participating bus operators' services within this zone. PLUSBUS costs a set amount each day, in addition to your train fare and can be added to most train tickets. Prices start from just £2 a day. Children (aged 5 to 15 years) pay half-fare. Railcard holders benefit from one-third off PLUSBUS prices. Ask for PLUSBUS when buying your train ticket.

See page 14 for details of stations where PlusBus is available.

Safety information

In almost all emergency situations it is safest to stay on the train and then listen for instructions from a member of staff.

If you are in immediate danger and have to leave the train, avoid walking on the track. Remember that other trains may still be running.

If possible, exit directly onto a walkway or embankment.

Passenger Safety Instructions

Our trains are designed to put your safety first. Please take a moment to read these simple instructions and familiarise yourself with the safety features and equipment which we've installed for your protection.

General Instructions

- To stop the train, pull the red alarm above the doors – in a station if practicable – and speak to the driver.¹
- Stay calm and do not leave the train unless instructed otherwise.
- Emergency and first aid equipment is located by the toilet (see direction signs).

¹Emergency alarms are located above the doors

Fire

- If fire breaks out, walk calmly to the next carriage.
- Don't attempt to collect your luggage from the racks.
- Fire extinguishers can be found next to the doors.²

² Extinguishers are located in doorways. There is one fire extinguisher per coach.

! IN MOST EMERGENCY SITUATIONS IT'S SAFEST TO STAY ON THE TRAIN UNLESS INSTRUCTED OTHERWISE.

Evacuation via Doors

- If you are in immediate danger and have to leave the train, **avoid walking on the track**.
- To open the doors, remove cover over emergency door release and pull handle.³
- Pull the doors apart carefully.⁴
- Sit on the door ledge, then jump to the ground.⁵
- If possible, **exit the train directly onto a walkway or embankment**.
- The doors will only open when the train is moving very slowly or has stopped.

³ Remove cover and pull handle to release doors

⁴ Pull doors apart

⁵ Sit on ledge and jump to the ground

Trackside Safety

- Look and listen for approaching trains – remember that **other trains may still be running**.
- Get off the track as quickly as possible.
- Don't step on **any** rail.
- Check for wires, debris and sleep drops.

Chiltern Railways

If you think our way, travel our way.

Whenever you travel with us, please make sure that you familiarise yourself with the safety instructions carried on every train.

Whenever you travel with us, please make sure that you familiarise yourself with the safety instruction posters carried on every train. These can normally be found by the doors.

These instructions may vary slightly depending on the type of train. Please check each time you travel.

Fire extinguishers are carried on every train. Please acquaint yourself with their locations.
