5. Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

Yes No

If Yes, please complete the following information about the advice you were given (this will help the authority to deal with this application more efficiently):

Officer name:

Title: First name: Surname:

Reference:

Date (DD/MM/YYYY): (Must be pre-application submission)

Details of the pre-application advice received:

Due to the sensitive nature of the site, Harlequin Group Ltd. opted to utilise Cherwell District Council's Pre-Application Consultation service and sent a representative to meet with Mr. Stuart Howden from Cherwell DC's planning department on 10/06/2016.

The meeting lasted for around an hour and it was thought that positive and encouraging advice was taken away by Harlequin Group Ltd. namely with the recommendation of utilising a pump-up mast to depict the visual impact on Heyford Park by producing relevant photomontages.

Mr Howden submitted his report to Harlequin Group after visiting the site and summarised the following:

The proposed lattice tower and associated structures and fencing would have a negative impact upon the visual appearance of the area. Furthermore, the proposal would unduly affect the historic character and appearance of Former RAF Heyford Conservation Area and the significance and setting of the nearby Grade II listed buildings and locally listed buildings.

At the application stage, clear and convincing justification would need to be provided as to why a new structure is required in this location. The application will need to show that existing telecommunications structures and buildings in the area have been considered for siting the telecommunications apparatus on, and valid reasons will need to be provided as to why these have been discounted. You will also need to clearly demonstrate the public benefits of the scheme.

However, I consider it unlikely that the considerable harm to the conservation area and the significance and setting of the nearby listed and locally listed buildings, resulting from the siting of the lattice tower in this location, can be demonstrated to be outweighed by the public benefits in this case.

Harlequin Group appreciates Mr Howden's comments and hopes that this application provides sufficient justification for the public benefit to be realised from this proposal as well as justifying the site from a perspective of siting and appearance within an understandably sensitive location.

We hope that the Discounted Options will serve to evidence that the location chosen for this proposal is the most appropriate given existing structures and alternative locations. It is believed that this location will provide the best possible solution for the provision of new 4G mobile phone coverage to quickly increasing surrounding population in the Heyford Park complex.

6. Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle access proposed to or from the public highway?

Yes No
