4. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

5. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

6. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

7. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

8. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

9. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

10. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

11. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

12. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

13. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

14. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

15. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

16. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

17. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

18. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

19. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

20. Existing trees and hedges to be retained shall be protected in accordance with the relevant British Standard Specifications and Codes of Practice.

B) Ground works

1. Soil levels and profiles shall be carried out in accordance with the relevant British Standard Specifications and Codes of Practice.

2. Existing topsoil and imported topsoil shall be cultivated to a depth of 300mm and shall be free from stones, rubble and other debris.

3. Imported topsoil shall be tested and certified in accordance with the relevant British Standard Specifications and Codes of Practice.

4. Subsoil shall be cultivated to a depth of 300mm and shall be free from stones, rubble and other debris.

5. All wood works to use AQ3 water based wood preservative applied by vacuum pressure by Permawood or approved equal before installation. Finish to be Sikkens Cetol Filter 7 plus 1 coat Sikkens Cetol Filter 7 Plus Plus. Allow for 2 coats of Sikkens Cetol Filter 7 Plus Plus to all timber surfaces.

6. Fixings to be of stainless steel, brass or galvanised steel. Nails to be annular ring shank. Screws to be countersunk and pelleted. Allow for 2 coats of Sikkens Cetol Filter 7 Plus Plus to all timber surfaces.

7. Timing varies for timber with "T" grade timber requiring 2 coats of Cetol Filter 7 Plus Plus. Refer to manufacturers instructions for application and drying times.

8. Exposed timber ends to be sealed with Sikkens Cetol Filter 7 Plus Plus.

9. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

10. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

11. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

12. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

13. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

14. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

15. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

16. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

17. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

18. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

19. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

20. Timber to be of Scandinavian redwood, pressure treated to BS 8417:2011 and BS 5589:2012 to ensure a minimum of 25 years durability.

C) Planting

1. Planting shall be set out exactly as shown on the planting and planting schedule drawings. Any variations must be approved by the Landscape Architect or Client's representative before planting takes place.

2. Proposed large transitional or specimen trees shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

3. Trees shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

4. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

5. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

6. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

7. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

8. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

9. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

10. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

11. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

12. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

13. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

14. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

15. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

16. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

17. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

18. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

19. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.

20. All trees, hedges and shrubs shall be planted in accordance with the relevant British Standard Specifications and Codes of Practice.
