Comments	<input type="text" value="Dear Sirs, it is very difficult to comment on an application when the TS, LVIA and D&A to name but some cannot be downloaded. It is also unclear as to how plots 1-4 and 85-89 are accessed, as it appears that there is a grass verge abuts the main access road and the access road to the drives for these plots will have to cross the grass verge. There are also some inconsistencies between the proposed site plan 2105/002A and the site plan included within some of the technical supporting information, such as the drainage strategy. Perhaps if all of the supporting documentation were downloadable then these inconsistencies would be explained. I look forwards to hearing from you."/>
