Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="The reasons for my objections are listed below: 1. All of the published correspondence received by the council refer to 2017 or earlier and relate to an earlier application of 77 houses not the 89 now proposed. All the previous comments made by those objectors still stands in my view and even more so now with the potential increases in numbers. 2. If the project receives approval, then this makes a precedent for any of the green fields to be sold and developed around Heyford Park which is not what we voted for. Our support was gained for the redevelopment of Heyford Park, there will be enough new houses provided by Dorchester and Bovis. 3. This development is not of a similar type of property to the site's immediate surroundings' such as the properties along Larsen Road, the dwellings at Letchmere Farm or the properties built by Dorchester Living to the eastern end of Camp Road. 4. The proposed access road and access to driveways along the frontage is in a dangerous dip, this is possibly the worst place on the whole site for an estate of new houses. 5. Previous Residents Association chair persons have objected to this as they represent the larger community and I for one do not see that changing. 6. This development takes no account of the increase in traffic from the proposed leisure centre being built at the rear of Heyford Leys opposite Regards Andy Smith"/>
