

NOVEMBER 1996

C8 SPORADIC DEVELOPMENT IN THE OPEN COUNTRYSIDE INCLUDING DEVELOPMENTS IN THE VICINITY OF MOTORWAY OR MAJOR ROAD JUNCTIONS WILL GENERALLY BE RESISTED.

9.12 Sporadic development in the countryside must be resisted if its attractive, open, rural character is to be maintained.

9.13 Policy C8 will apply to all new development proposals beyond the built-up limits of settlements including areas in the vicinity of motorway or major road developments but will be reasonably applied to accommodate the needs of agriculture. There is increasing pressure for development in the open countryside particularly in the vicinity of motorway junctions. The Council will resist such pressures and will where practicable direct development to suitable sites at Banbury or Bicester.

C15 THE COUNCIL WILL PREVENT THE COALESCENCE OF SETTLEMENTS BY RESISTING DEVELOPMENT IN AREAS OF OPEN LAND, WHICH ARE IMPORTANT IN DISTINGUISHING THEM.

9.30 Each town or village has its own separate identity, and it is important that development on areas of open land between them is restricted to prevent their coalescence. Some gaps are more vulnerable than others; rural communities may feel particularly threatened where they are in close proximity to urban areas eg Banbury and Bodicote, Banbury and Drayton, Banbury and Hanwell, Bicester and Chesterton, Bicester and Launton, Bicester and Wendlebury. In addition there are villages which are separated by small stretches of open land which need to be preserved to maintain the villages' identity eg. Alkerton and Shenington, Sibford Ferris and Sibford Gower, Barford St Michael and Barford St John, Middle Aston and Steeple Aston. Similarly the gap between Upper Heyford village and the former RAF Airbase is narrow and vulnerable and should be maintained as open land.

C28 CONTROL WILL BE EXERCISED OVER ALL NEW DEVELOPMENT, INCLUDING CONVERSIONS AND EXTENSIONS, TO ENSURE THAT THE STANDARDS OF LAYOUT, DESIGN AND EXTERNAL APPEARANCE, INCLUDING THE CHOICE OF EXTERNAL-FINISH MATERIALS, ARE SYMPATHETIC TO THE CHARACTER OF THE URBAN OR RURAL CONTEXT OF THAT DEVELOPMENT. IN SENSITIVE AREAS SUCH AS CONSERVATION AREAS, THE AREA OF OUTSTANDING NATURAL BEAUTY AND AREAS OF HIGH LANDSCAPE VALUE, DEVELOPMENT WILL BE REQUIRED TO BE OF A HIGH STANDARD AND THE USE OF TRADITIONAL LOCAL BUILDING MATERIALS WILL NORMALLY BE REQUIRED.

C29 THE COUNCIL WILL SEEK TO ENSURE THAT ALL NEW BUILDINGS, EXTENSIONS AND ALTERATIONS TO EXISTING BUILDINGS ADJACENT TO THE OXFORD CANAL, ARE DESIGNED TO A HIGH STANDARD WHICH COMPLEMENTS THE TRADITIONAL

CHARACTERISTICS OF THE WATERSIDE SETTING IN TERMS OF THEIR DESIGN, MATERIALS AND LANDSCAPING.

9.66 The standard of design acceptable to the District Council will be influenced by the environmental context of the site and its surroundings, and the nature, size and prominence of the development proposed. Design considerations will, when appropriate, include the siting, layout, size, scale, architectural style, building materials, means of enclosure and landscaping of new buildings and associated land uses. The Council will seek to avoid discordant or badly designed development that would harm the appearance and character of the existing built environment, the Green Belt or the countryside.

9.67 In appropriate circumstances a landscaping scheme incorporating the retention of existing trees and hedgerows of amenity value will be required to be included as part of development proposals. Trees are a valuable feature of both the rural and the urban landscape. Their amenity value and screening effect can enhance the appearance of new development. Thus wherever new tree or hedge planting is considered desirable for aesthetic reasons, and can be justified by the nature or scale of the development proposed, the Council will attach appropriate conditions to a planning approval. Landscaping schemes should normally include tree and shrub planting but should also include landscape modelling and hard-surface detailing whenever necessary. General guidance for developers is given in BS. 5837:1991 - "A Guide to Trees in Relation to Construction" although developers are advised to contact the Council's Leisure Services Department for more detailed advice.

9.68 It is not the object of policy C28 to suppress innovation and creativity of design. In order to promote the creation of an interesting and attractive built environment the Council will encourage variety in design, provided that the appearance of a proposed new development is sensitive to the particular site and is in harmony with the general character of its surroundings.

C30 DESIGN CONTROL WILL BE EXERCISED TO ENSURE:

(i) THAT NEW HOUSING DEVELOPMENT IS COMPATIBLE WITH THE APPEARANCE, CHARACTER, LAYOUT, SCALE AND DENSITY OF EXISTING DWELLINGS IN THE VICINITY;

(ii) THAT ANY PROPOSAL TO EXTEND AN EXISTING DWELLING (IN CASES WHERE PLANNING PERMISSION IS REQUIRED) IS COMPATIBLE WITH THE SCALE OF THE EXISTING DWELLING, ITS CURTILAGE AND THE CHARACTER OF THE STREET SCENE;

(iii) THAT NEW HOUSING DEVELOPMENT OR ANY PROPOSAL FOR THE EXTENSION (IN CASES WHERE PLANNING PERMISSION IS REQUIRED) OR CONVERSION OF AN EXISTING DWELLING PROVIDES STANDARDS OF AMENITY AND PRIVACY ACCEPTABLE TO THE LOCAL PLANNING AUTHORITY. 9.69 The Council wishes to secure environmental enhancement through new development. Proposals that would detract from the character of an area owing to obviously poor design will be resisted. Similarly proposals that would change the established character of an area, by, for example, introducing high-density housing development where low densities predominate, will

normally be unacceptable. The design and layout of new development can also assist with crime prevention and the Council will have regard to the advice in Circular 5/94 'Planning Out Crime' and 'Secured by Design' initiative. The assistance of the Thames Valley Policy Architectural Liaison Officer will be sought in this context.
