No Dimensions to be scaled from this drawing.  
 Drawing created using LSS v9.91.01

KEY:

- Application Site Boundary
- Extent of Theoretical Visibility of Development
- Development Theoretically Not Visible

**Note:** The area shown as visible is calculated using the bare earth model and does not take into account the potential screening by vegetation or buildings, in line with GLVIA3. The landform data contour accuracy used for the ZTV is better than 3m (RMSEI). The ZTV therefore should be used to inform on site assessment only and should not be used as a substitute for visiting the site and its environs.
