PARSONS BARN FARM,

SIBFORD GOWER

OLIVIA COLSON

OX155AD

Dear Madam

I am writing to object to
the planning application 16/01834/056.

My reasons are :-

My ex. husband & I built the
entire house & buildings on a
green field site because the old
farm house, etc at Tyre Hill Field
was impossible to farm due to the
increase of the size of modern farm
machinery, ". Not agricultural use.

The house & part of the farm was
sold to MR STUART WHITE in 2009.

Since then he has made a mockery
of the agricultural use conditions.
He has furniture, cars & "

con per cars is 1 modern type barn,
another barn is rented out to a
rental company called Gerleman
removers with 6 cars.

Another barn has been used by a
company making enormous American
camper units.

There have been several complaints
made to you planning dept over the
years & nothing has been done
about it.

The planning application
describes a C&T SHED. That has
NEVER been a car shed on this
property. All the barns are
open fronted agricultural modern
barns, erected under the 1971
conditions.

The water supply to my property
& the WHITES are from a stream.

Mr WHITE properly & barns
have the first draw of the
water, consequently my water
supply is very reduced when
water is used by the Whites.
I have horses & sheep as well as my
own requirements. This will be
affected by further development
at Parsons Barn Farm.

I feel very strongly & object
to Mr White's changing a farm
into a workshop, caravan park,
& lorry depot.

There is no need for Mr.
WHITE to build 2 houses under the
existing A.F.T.R. because he does
not employ a farm worker.

I hope all these points are
considered.

Yours sincerely 
MRS S. TOMPKINS
