<b>Comments</b>	<input type="text" value="The manner in which this project has been approached is despicable. It has been hidden from residents of the area, though it is sure to significantly impact their lives. The estate is accessible to the rest of Banbury via one small road that is also shared with the train station car park and post office depot respectively. This road is constantly a source of heavy traffic in peak periods and the proposal to add up to 200 new properties would cause a drastic increase to this traffic. The building of the new properties is also sure to cause high levels of noise pollution, and those of us with young families rely on this being a peaceful environment to let our children sleep when required. The new properties are also likely to reduce house prices in the area meaning those who own their houses/flats will be negatively affected from a financial situation, something given the current climate, is completely unacceptable. The local residents have not been consulted at any stage in proceedings and stand to gain no positive outcome if these plans are approved. As honest, tax paying residents we deserve better and we deserve to be looked after by our council. I implore you to prioritise the personal and financial wellbeing of yours townspeople and reject these plans."/>
