Comments	<input type="text" value="I am very concerned about local traffic and safety. The local road network is already above capacity and local roads (in particular the junction with Higham Way, Merton Street and Middleton Road) often become gridlocked. These traffic pressures have led to dangerous local roads with drivers acting aggressively, cutting through the estate and jumping lights to avoid the queues. With many families and small children in the area, this is particularly concerning. Given these existing issues a second access route is already required to alleviate the pressure on local roads. The council has failed to act adequately on previous issues raised about the junction and when challenged on local noise arising from works which they approved, the council did not act in good faith and refused to release a noise survey."/>
