Comments	<input type="text" value="I am objecting to the planning permission based on several concerns 1. Traffic around this area is already really bad especially during peak times, and additional housing is only going to make it worse. 2. Lack of outdoor space- the new development is likely to take away the only green space (field next to the BYHP) available to us. This park offers a great place for people to exercise which promotes their physical health and emotional well-being. I cannot emphasise how important this is for general population health. During the difficult coronavirus pandemic this was the only place near our house which felt like a safe outdoor where we could practise social isolation yet get some exercise. 3. Environmental concern - the new project is likely to increase both noise and air pollution not just during the construction period but also long term."/>
