Comments	<input type="text" value="The traffic at the Merton Street, Middleton Road junction is already bad. The junction becomes blocked regularly. Cars then block the pedestrian crossings which is unsafe. Also traffic coming across the bridge from the town is often backed up to the Concorde Avenue junction blocking the lights. This has caused drivers to take chances that have put pedestrians in danger by jumping lights. Middleton Road is also backed up to Tesco's at certain time's bringing a lot of grimsbury to a halt especially at peak times. Unless serious changes are made to the current road system, like another road across the railway from the rear of the site this application should not be approved."/>
