Comments	<p>I would like to register my objection to the proposed development. The addition of 200 residential units to the Grimsbury area will result in significant damage to the character and amenities of this residential area. The intersection of Middleton Road, Merton Road and Bridge Street is already a significant bottleneck, with the timing of the two sets of traffic control lights seemingly designed to exacerbate rather than alleviate the problem. Traffic jams regularly extend the length of Middleton Road, and there have been at least one serious accident involving a cyclist in the past couple of months at the junction of Middleton Road and West Street. The transport infrastructure issues created by the existing developments on the former cattle market site are already a cause of significant negative impact for residents in the Grimsbury area, and the housing developments around villages to the east of Banbury along with the multi-storey station car park has only intensified the traffic congestion issues for local residents. I can see nothing in the planning documentation that will address this key issue, and therefore object to the proposals.</p>
