Andrew

At the end of the meeting I had a brief chat with Rupert and Paul Action in respect of this space. I mentioned that an AMS may be needed and the planting will have to be appropriate for the dry shade, even an irrigation system may be required.

Regards

Tim

Andrew

As discussed the idea of a spill-out space/multifunctional area for 315 (Heritage centre), with the appropriate hard and soft landscaping.

For building 103 (Cultural Venue), again a spill-out space/multifunctional area would be appropriate. However we can discuss at tomorrow's meeting.

Regards.

Tim
