The land outlined in red on the first plan and in green on the second plan is the same area. They both show the current Bicester Airfield and Stratton Audley Quarry Local Wildlife Sites.

The second plan shows two purple areas. Both are proposed LWS extensions - "Sites proposed as LWS until confirmed by the LWS selection committee. Should be considered in the same way as LWS and receive the same level of protection in the planning system".

Is that ok?

So is the land north of Skimmingdish...in purple \and in the CLP....a wildlife site? Or proposed?

Are that attached plans helpful? The purple areas on the second plan are proposed LWS extensions – "Sites proposed as LWS until confirmed by the LWS selection committee. Should be considered in the same way as LWS and receive the same level of protection in the planning system".

Recent survey information and the site's description and reasons for designation are available from the Thames Valley Environmental Records Centre. Would you like me to contact TVERC?

Meeting applicants Wednesday so be grateful for thoughts asap

I am going on site this pm...is there anything I need to look out for?

Hi Andrew

No I have not been consulted on this. I will try and have a look at it this evening or I'm back in Monday if that is not too late?
Charlotte

Charlotte
....either way can I have comments this week pretty please?

Where can I find a copy of the wildlife site plan(is that it in the CLP?) and an assessment?
