Subject: 15/00138/DISC - CDC Arboriculture

Hi Caroline,

Regarding the above Disc, I hold concerns for the "Orchard trees" where some appear to overhang into the road. This will likely bring future maintenance pressures due to falling fruit. Could this be amended to create a gap between the road edge, and the 1st canopy spread?

Also I have concerns for the 3 Quercus Robur Fastigiatas due to their proximity to both a building, and a junction. Could I suggest this be amended to 2 trees in order to reduce water uptake potential, and future shading to the house?

Kind regards,

Iain Osenton
