Dear Sir

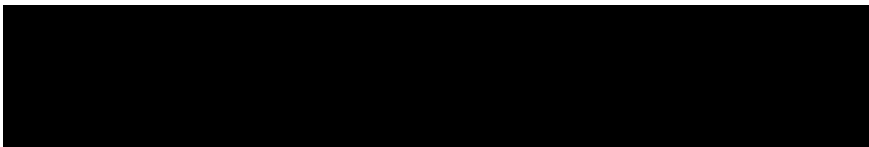

App/C3105/W/17/3174363

I wish to comment on this appeal, to ask you to allow the erection of the Swann Lattice Tower to give a mobile signal in this area.

I frequently work in and around the local villages to this proposed mast. I conduct a great deal of business on my phone while at work ordering materials during office hours. I struggle to find a place where I can obtain good enough reception to carry out a normal conversation.

Please pass this appeal.

Mr Mark Parry

Dear Inspectors

TOWN AND COUNTRY PLANNING ACT 1990 – Appeal against Refusal

Re: APP/C3105/W/17/3174363

Harlequin Group. Tower with dishes.

Sibford Gower

I am writing as Chairman of Epwell Parish Council. We are very much in favour of the construction of the proposed tower and the consequent improvement to mobile phone coverage.

Our parish is adjacent to Sibford Gower and we have a very weak and sporadic mobile phone signal. We have to go to the top of a local hill to get a reasonable signal. The Parish Council is asked on a regular basis to investigate ways of improving the signal strength and coverage.

Local businesses are adversely affected by the poor signal, delivery people too, as well as everyone's increasing reliance on mobile phone communication. BT has this year removed our one and only phone box so there is no longer a way for a visitor to make an emergency call. Our defibrillator requires us to call a number to get the access code.

Epwell Parish Council fully supports this Appeal against Refusal.

Yours faithfully

Christopher Hurst

Dear Sir

App/C3105/W/17/3174363

I wish to support this appeal.

I do a great deal of farm contracting work at Blenheim Farm where the mast is hopefully going to go. I need to keep in touch with others on my home farm at Kingham while I am away. It is hopeless trying to find a signal, to make a call, at Blenheim Farm and in the surrounding area towards Shutford.

Allow this mast please.
