

**Land Adj to B4035 CTIL 201348  
Unnamed B4035 Single Carriageway 6811256  
Sibford Gower**

**18/00016/NMA**

**Case Officer:** Matthew Chadwick

**Recommendation:** Approval

**Applicant:** Harlequin Group

**Application Description:** Non Material Amendment to 16/02150/F – The proposal is that the 21m lattice tower will only have 3 antennas attached initially, rather than the 6 approved.

**Relevant Planning History**

Under planning application 16/02150/F and planning appeal APP/C3105/W/17/3174363, planning consent was granted for the installation of a 21m lattice tower on a concrete base, with 6 antennas, 2 dishes and 4 cabinets.

**What is proposed?**

This Non-Material Amendment application proposes to reduce the number of antennas to 3 from the approved scheme which had 6.

**Appraisal**

It is considered that the proposed changes would be non-material. The alterations would not affect the character of the permission in any way and would be removing elements from the scheme that do not have a material impact.
