| Comments | <input type="text" value="Ref the ecological surveys comments on otters, I had a sighting of one 0830 17th August in the canal at south side of Wormleighton Reservoir. Another villager commented they had seen one near 'Appletree' the opposite side of the proposed marina site. I watch it for 5-10 minutes- I have couple of photos if evidence required - I have tried uploading but won't let me submit even though I have reduced file sizes. I would not like for these rare (certainly in these part) creatures to be pushed away from the area."/> |
