Attn. Clare O'Hanlon

Glebe Farm. Marina. OBJECTION

Reference. [18/00904/F](#). OBJECTION.

The further suburbanisation of Oxford Canal below the village of Claydon, in an area termed as Honey Pot, for obvious reasons by developers.

Good Road and Rail Links, the continuing improving of Leisure, Shopping, Restaurant facilities of Banbury only seven miles away.

So, the monstrosity of the Marina itself in the beautiful landscape it will be in. It will be the proverbial sore thumb lit up at night and ruining the night sky above and around, to be accessed by a no wider than three metre wide Lane know as Boddington Road. It's entrance being over a one hundred year old single track Canal Bridge where traffic from either side cannot see the other.

Could we see traffic lights there in the future, who knows !!!!!????

I believe Oxford County Council Highways. Mr Rashed Babosa being in charge, have no worries about this situation, well they wouldn't would they, not having seen it, and only knowing Claydon by a point on the map. (Verging on irresponsible)

In closing, in the future, if Oxford County Council or Cherwell District Council bleat about the environment in any shape or form it will ring very hollow indeed

Your faithfully

P.s. By the way Canals and River Trust encourage Land Owners And Farmers living near Canals to build Marinas. The better the location Of course !!
