

## Artist Commission Brief

**Public Art Project Location:** Off site in the vicinity of Skimmingdish Lane/Launton Village

**Developer:** Albion Land (£15K)

**General description of the project:** This project will be developed and managed by Cherwell District Council Arts development. A public art work will result from a period of local consultation with anticipated completion by summer/autumn 2019.

**The commission:** Skimmingdish Lane borders on Launton Village.

The project will take into consideration the participation of residents at the Maria Malaband Wyndham Hall care home and also residents of Launton Village and in particular the primary School.

The location of the resulting artwork will be in the vicinity of both communities. The final location will be decided by Cherwell District Council with Launton Parish Council and planning permission will be sought.

We are therefore seeking a skilled public artist who has experience in working within a social/ community context to interpret and produce designs and deliver an artwork which can be appreciated and treasured by a local community. Any medium will be considered, so long as the resulting work is fit for purpose and of high quality.

Proposed Budget Phase	Description	Amount
