

**Former Methodist Chapel, Temple Mill Road (leading to, & also known as Colony Road)  
Sibford Gower**

Front elevation circa 2016—It was built circa 1860s & added to in the 1930s

**Reference PP-07144946: Proposed conversion of redundant chapel into residential dwelling**

## **Design Brief**

The former chapel is a modest and very simple building and the proposed scheme sets out to minimise changes to its external appearance

The existing doors and windows will be retained and refurbished as necessary

The entrance porch and door will be retained in their current form and will be renovated as required

Two additional conservation Velux type roof windows are proposed for the East elevation (front) and with one on the South elevation, and four on the West elevation (back)

Traditional cast iron type guttering and down pipes will be retained

There will be provision for bins, bicycles & garden tools

The proposed accommodation has two bedrooms, one on a gallery floor, with a double height living room and the retention of the existing kitchen and utility spaces.

**The objective is to provide a modest home that will complement and enhance the street scene**
