

Planning App:18/00220F

We are writing to give this proposal our full support.

It is time our now growing village has facilities for sports and a new community hall for everyone.

Existing meeting places are just not adequate for large groups and have no parking.

This proposal is long overdue.

After a recent referendum in the village where the majority voted for this plan, it is only right and vital that they should be given the facilities they deserve.
