Dear Sir

Does the appellant not understand what No means? I was present at the planning meeting where the refusal took place & it was an overwhelming refusal. Does he think he can make people change their minds by Appealing against their decision?

This is in a conservation area and any building would block the view across the valley between Burdrip and Sibford Ferris. Plus the fact there are cottages that would have their views

P.T.O.

interrupted by any buildings.

Yours Sincerely
