Annex A **Highways England recommended further assessment required**

HIGHWAYS ENGLAND has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

This response represents our formal recommendations with regards to 18/00825/HYBRID and has been prepared by Eric Cooper.

The proposed next phase of the Heyford Park development comprises 1175 new dwellings along with almost 50,000sqm of commercial, transport and community infrastructure. It forms part of the larger proposals for a new community part of which is already built out. The former military base site is near to the M40, approximately 1 mile west of junction 10. As such it is likely to have a significant impact on the SRN.

¹ Where relevant, further information will be provided within Annex A.

We have been working closely with the promoters of this development, Dorchester Living Ltd, their transport consultants and both Cherwell District and Oxfordshire County Councils on understanding the impact of the proposed development on the operation of M40 Junction 10, A43 trunk road and the local highway network with the aim of agreeing suitable highway proposals which will mitigate its impact.

Modelling work has been completed and agreement on appropriate mitigation measures works is near to conclusion. Further time is therefore necessary to reach a satisfactory conclusion. It is therefore requested that this application is not determined before 27 March 2020 to enable these discussions to conclude. If we are in a position to respond earlier than this, we will withdraw this recommendation accordingly.
