Annex A Highways England recommended further assessment required

HIGHWAYS ENGLAND has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

This response represents our formal recommendations with regards to 18/00825/HYBRID and has been prepared by Eric Cooper.

Following discussions with the applicant and Oxford County Council agreement has been reached on appropriate infrastructure measures to mitigate the impact of the proposed development on the highway. Currently, discussions are taking place on recommended appropriate conditions to be submitted as part of a formal response to the consultation. It is therefore requested that this application is not determined before

¹ Where relevant, further information will be provided within Annex A.

9 April 2020 to enable these discussions to conclude. If we are in a position to respond earlier than this, we will withdraw this recommendation accordingly.
