## **Annex A    Highways England recommended further assessment required**

HIGHWAYS ENGLAND has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

This response represents our formal recommendations with regards to 18/00825/HYBRID and has been prepared by Eric Cooper.

The proposed next phase of the Heyford Park development comprises 1175 new dwellings along with almost 50,000sqm of commercial, transport and community infrastructure. It forms part of the larger proposals for a new community part of which

<sup>1</sup> Where relevant, further information will be provided within Annex A.

is already built out. The former military base site is near to the M40, approximately 1 mile west of junction 10. As such it is likely to have a significant impact on the SRN.

Following consultation with the promoters of this development, Dorchester Living Ltd., their transport consultants Peter Brett Associates (PBS) and both local authorities- Cherwell District Council and Oxfordshire County Council, further modelling works have been undertaken and completed. This has determined the scale of impacts on both the SRN and local highway network and assessing with various mitigation proposals aimed at addressing those impacts on the SRN.

We are currently working with the parties to agree conditions and appropriate trigger. Therefore, we recommend that the application is not determined before 30 April 2020. This will allow sufficient time to complete the discussions and provide a formal response.
