Subject: Ref 18/00825/HYBRID

I live in a mobile home on Duvall park Homes which I purchased and moved in on the 8th of November 2018, after the death of my husband on 28th July 2018.
Prior to the purchase we were informed there would be no building on the land adjacent to the park and the sewage treatment plant.

Which is adjacent to my home. I have now been informed that sports and care home facilities are to be built on said land, this is the first I have heard of any of this .

I am disabled and on the vulnerable list like many on this site .

I STRONGLY object to this proposal as it will impact on my quality of life with the added traffic, light pollution and the noise that a sports facility will bring and the amount of traffic.

This park is sold as over 45 year olds and no children ,retirement complex .

My husband put all this in place before he died as he wanted to know I would be safe and be able to live as best as I could .

We all have paid a lot of money for these homes just as much as bricks and water our properties will be devalued if not un resaleable who will bare the cost for this . What sort of competition is in place

,
This is a retirement park for over 45s and no children, yet the planing is for sports fields with floodlights etc when this park for the elderly was already in place how can this happened.

Can you please confirm and send copy of said plan and any information you have on this matter .

Yours sincerely
Mrs Barbara Cavanagh
