Subject: RE: Planning application Cherwell XI/00825/HYBRID

Importance: High

Good morning

Please see the response below to the above planning application:

Explosives site licence No. - 778 – ‘Southern Bomb Store’

Development area 23 includes part of the site licensed for the storage of explosives. Development area 24 and 27 are described as filming areas and include the remainder of the currently licensed site. The collective nature of these developments is such that HSE would expect to review the licence for the site and consider whether the nature of the developments was such that the site would no longer be suitable for the storage of explosives.

Explosives site licence No. 2026 – ‘Northern Bomb Store’

Development area 24 and 27 are described as filming areas and include the remainder of the currently licensed site. The collective nature of these developments is such that HSE would expect to review the licence for the site and consider whether the nature of the developments was such that the site would no longer be suitable for the storage of explosives.

Regards

Martyn Sime
