<b>Comments</b>	<p>While not losing sight of the fact that there are elements of this plan that carry merit it does appear that Dorchester Living - having carried out a VERY public consultation to the original plan - have gone into stealth mode as to the 2020 amendments that have been requested. This scheme cannot surely be approved while so many details are unknown and while so many people will be affected. This new scheme should be presented to the Community as it was originally and allow everyone to fully understand the impact on the residents - both Human and Wildlife - that these changes will bring. An expanded Village Centre South &amp; relocated Sports Pitches (and associated impacts - noise, light etc) need to be better explained. As a final point, the CDC website made reviewing the changes very difficult - the differences from the plans that were (presumably) broadly accepted should be shown to allow direct comparison.</p>
