Type of Comment Objection

Type neighbour

Comments It is not appropriate to have a sports field next to the sewer works. Sports is associated with health and I really cannot understand the thought that people/ potentially young children will be breathing around this type of area. The sewers are already close to some homes that have been developed by Dorchester and these poor people have to put up with this awful stench at certain times. Would it not be more appropriate to put a buffer of some sort there. For example a woodland area/ orchard/ wild flower meadow. This is what other villages do. These areas should not be used for populating or putting people. Buffers should be used. Please please take this into consideration when making plans.
