Subject: Heyford Park Planning

Dear Andrew, I have voiced other concerns re the planning application above and they are well represented in the report by Somerton

PCC .

I would like to add that with the past experience of living in the area it is vital for BOTH the residents in Heyford Park and local

community that noise,time, date ,lighting restrictions are implemented and monitored with particular reference to the filming area , car drive

experience days ,observation tower, zip wire, hanger change of use. Those in the immediate area are very open to discussion so a

solution can be found to suit all.

With Thanks Ruth Power
