**Subject:** BSA application

James

This note is to reiterate our objection as a Parish Council to this proposal. The application ignores the need for adequate footpath provision and the parking issue. We recently had a Rugby tournament there and this created numerous problems including mass parking on The Hale and at the crossroads (to Little Chesterton, Akeman Street and Green Lane) a locality that has had several accidents recently. Adequate parking provision is necessary on site at the moment let alone with the proposals in mind. Also there is no doubt that additional traffic will be accessing the site from the Bicester area via the A4095, The Hale and Green Lane – roads already under intense pressure as OCC Highways know. We fully support the reservations listed by Nick Hardcastle who has discussed his concerns with us on several occasions and we are aware of the biodiversity issues raised by David Jones who owns land (Ash Grove) on the Little Chesterton road.

Thanks for your copious and comprehensive report.

Philip Clarke (Chair, Chesterton PC)
