<b>Comments</b>	<p>Dear Sir / Madam, Re: Dorchester Living Limited Upper Heyford planning application 18/00825/HYBRID Supplementary comments on the above application relating to additional document TN035 - Reassessment of the Impacts of Heyford Park and Associated Mitigation on Local Villages. We object to the proposed Middleton Stoney Bus Hub, as identified within the above document, this would substantially increase the traffic going through Somerton. We already has natural traffic calming measures, such as single traffic width, hump back bridges, steep hills, sharp bends, weight and height restrictions, blind entrances, no footpath or room for a footpath alongside the road etc. I am unsure what further mitigation measures would calm through traffic to a safer level. We already feel unsafe due to the volume, speed and manor of driving through the village. I hope that you consider our views in your decision. Your faithfully Mrs Primrose Clare Mr Neil Clare</p>
