Type neighbour

Comments The application is only of benefit to the developers of Heyford Park, without proper consideration of traffic transferred to alternative routes in the surrounding area. Traffic that is diverted through Somerton and North Aston will be using a route that is unsuitable for additional traffic because it is narrow and single file in places with no foot path provision, liable to flooding, over single file bridges with weight restrictions with dangerously poor visibility, where there are no footpaths, and traffic is obstructed by roadside parking.
