Dear Sir/Madam,

I wish to comment on the above planning application submitted by Bicester Heritage in respect of changes they wish to make to the RAF Bicester Site.

When Bicester Heritage purchased the site we were led to believe they would be preserving the heritage of the RAF Bicester site and making it available to the public. Their name "Bicester Heritage" suggests that would be the case, but nothing could be further from the truth. They appear to have purchased the site to turn the existing building into commercial premises and stage car shows and racing on the airfield. I understand they also wish to build a hotel on the site.

I have a particular issue with this note in the application where they request "demolition of buildings 101 and 104 and erection of replacement structures". I fail to see how demolishing original structures on the site and replacing them with new structures preserves the heritage of RAF Bicester and am extremely angry that Bicester Heritage are even considering demolishing parts of the RAF Bicester site.

I hope you consider my objections to this Planning Consultation

Yours Sincerely

David Renshaw
