Comments	<input type="text" value="Danger. The proposed site would create more traffic on what is already a very dangerous part of the road. The proposed 25mm curb is ridiculous, cars zoom along far too fast and swerve to avoid each other as the road is not wide enough this will result in that area being mounted by moving vehicles. I want to walk my daughter to nursery but after a couple of near misses due to lack of pavement and width of the road available I now regrettably have to drive. This proposal will make what is already a dangerous road more dangerous."/>
