<b>Comments</b>	<input type="text" value="I totally support the application and hope all will be approved in this application .However I do have reservation as to the proposed floor area of the kitchen in its relationship to that of the dining area. In my past experience, as an architect , in designing restaurants I always worked on the premise that the kitchen floor area needed to be approximately one third to that of the dining area. The proposals fall far short of this However, I realise the existing building both, restricts, and dictates the proposed layout . I hope that good, and experienced management may find an answer to this. R.H.Westbrook"/>
